NEWS AND NOTES

SUGAR BOWL Michigan (-3) 23 Virginia Tech 20 OT - VT had 377-184 yd and 22-12 FD edges and settled for 4 FG's in regulation by 3rd string K Justin Myer as VT was without their top 2 K's. UM was extremely fortunate to escape with the win as VT dominated the first 24:00 but were SOD on 4&1 from the UM4 with 6:51 left in the half which was one of the key plays for UM. VT went on 3 long drives in the 1H going 44/12pl, 46/12pl and 70/9pl. Meanwhile in that span UM was int'd and punted. Unfortunately for VT they settled for 37 and 43 yd FG's. VT's D forced another punt but roughing the P gave UM a FD and later on 3&17 UM threw it up. VT's DB went for the ball, wiped out another VT DB while doing so and Hemingway caught it and went 45 yds for a TD and a 7-6 lead (:49 2Q). VT then fmbld the KO and UM settled for a FG and appeared to be stopped when their holder mishandled the snap and threw it up for grabs in a cluster of 3 VT defenders. The ball bounced off the 3 VT defenders, was caught by an OL for a FD and UM was awarded 3 more pts 2pl later and led 10-6 at the half. UM went 35/3pl after a TO for a TD to lead 17-6 (9:43). VT went on a 40/9pl drive settling for a 36 yd FG and then went on a 16pl drive for a TD to tie (10:22). VT, whose D had held UM all day, unfortunately went for a fake punt at midfield and was SOD leaving UM at the VT45 (7:21) and in scoring range and UM took advantage with a 39 yd FG. VT tied it with :02 left at the end of an 83/11pl drive. In OT VT got a TD but surprisingly it was overturned as it was not clearly an incompletion and many speculated it was a TD. VT then missed a 37 yd FG and UM got a 37 yd FG 4pl later for a fortuitous win.

CAPITAL ONE BOWL South Carolina (-2) 30 Nebraska 13 - Steve Spurrier was trying to break a string of 3 straight bowl losses and the one common denominator in those bowl losses was TO's by Stephen Garcia. Connor Shaw had 0 int's and SC had 0 TO's and SC got what Spurrier wanted and that was an 11th win, the most in school history. Shaw appeared very careful throwing the ball, sometimes holding on to it much longer than expected and would hit 11-17-230 and rush for 42. Alshon Jeffery had a big game with 148 yds on 4 rec's despite getting ejected from the game late 3Q when he and CB Dennard got into a shoving contest. SC finished with a 351-253 yd edge and surprisingly SC's leading RB, Brandon Wilds did not have a rush attempt as Kenny Miles rushed 15x for 67 yds. A couple of key plays went SC's way in the 1H as they blk'd and xp and ret'd it for 2 and instead of trailing 7-0 it was 6-2 (11:58 1Q) and while SC blew a key scoring opportunity having a 1st & gl and settling for a 20 yd FG and then missing it, they took over with :38 left in the half. They appeared to mismanage the clock and were down to just :06 at midfield when Shaw launched a Hail Mary pass and Alshon Jeffery caught it for the 51 yd TD to make it 16-13 at the half. SC got a TD with 12:25 left then drove 71/13pl for another TD with 3:05 left to clinch it, 30-13 and took a knee on their final drive.

OUTBACK BOWL Michigan St (+3) 33 Georgia 30 3OT - MSU ended a 5 game bowl losing streak picking up their first bowl win since 2001 even though UGA appeared to have this one locked up a couple of times. It was MSU's 2nd straight 11 win season and UGA opened the year with 2 losses, finished the year with 2 losses with 10 wins in between. UGA dominated the 1H leading 16-0 with 7-2 FD and 206-73 yd edges. In the 1H, they were SOD on 4&1 at the MSU6 and fmbld at the MSU41 but did lead only 2-0 when they got an 80 yd TD pass with 3:06 left 1H to King then a 92 yd PR TD by Boykin with 1:39 left for their 16-0 lead. UGA was int'd and MSU went 48/9pl for a TD and 2 pt conv, 16-8 (7:52). MSU got a 38 yd IR TD with 1:47 left 3Q, 16-14 (2ptng). UGA settled for a 32 yd FG and MSU got a TD with 8:22 left for the lead, 20-19 (2ptng). UGA appeared to ice it when after getting a TD (2pt) with 6:44 left, they got an int at their own 30 with 3:56 left then a FD. UGA had a punt with 1:55 left. Dantonio made a smart challenge on a pass interf call. He wasn't challenging the PI, he was saying the pass was incomplete which meant after the pen, which gave UGA the FD, the clock was stopped as opposed to running and that would be crucial. MSU got a TD with :14 left capping an 85 yd drive to force OT. UGA appeared to have OT won when they got an int in the first OT and then on 2&8, even though K Walsh had struggled all year, Richt opted to have the QB take a knee in the middle of the field to give Walsh a 42 yd FG straight on. He pushed it right. Each team got a FG in the 2nd OT and after a MSU FG, Walsh's 47 yd FG was blk'd in the 3rd OT.

GATOR BOWL Florida (-2) 24 Ohio St 17 - UF got a 14 yd blk'd punt for a TD and a 99 yd KR TD despite being outFD'd 20-14 and outgained 299-263 and came away with the 7 pt win in a battle of 6-6 teams. OSU fell below .500 for the first time since 1988 losing 7 games for the first time since 1897. UF's D-line had a season high 6 sacks and was harassing QB Miller on almost every play. UF did lead this one 24-10 settling for a 17 yd FG with 14:09 left. OSU punted with 12:22 left on 4&11, and on 4&5 with 5:02 left from their own 18. OSU drove 88/7pl getting a TD with :57 left but UF rec'd the onside kick.

LIBERTY BOWL Cincinnati 31 Vanderbilt 24 - Zach Collaros did a tremendous job returning from injury just to play vs Vanderbilt after breaking his right ankle Nov 12th. Coach Butch Jones felt it was the best performance of any player in the post season. Collaros' stats were not overwhelming as he hit just 12-29-80 and did not have his normal mobility with -8 yds rushing. Isaiah Peard rushed for 149. A couple key plays happened. VU had a much better offense with Jordan Rodgers at QB but he struggled in the 1H hitting 4-14-26 and was replaced by Larry Smith in the 2H who hit 8-19-142. VU was up 7-0 as UC had just 3 FD's on their first 5 poss. They handed off to backup RB Winn who went 69 yds for a TD to start the 2Q to tie it. VU went for it on 4&2 at the UC44 and fired incomplete with just 2:31 left in the half. UC went 56/9pl and got an 8 yd TD pass with :12 left in the half for the first key play, 14-7. Late 3Q VU went 52/8pl for a TD to tie (3:53) and UC would get a 44 yd FG. VU got a 68 yd TD pass to go up 21-17 with 14:03 left and appeared in control but UC got a 90 yd KR TD (13:51). VU punted twice and then was int'd at their own 43 and ret'd 12 yds with 3:15 left. UC went 31/3pl for a TD to ice it, 31-21. VU got a FG with :24 left but UC rec'd the onside kick.

TICKETCITY BOWL Houston (-7) 30 Penn St 14 - UH was coached by interim HC Tony Levine. PSU was without starting QB McGloin who got a concussion in a locker room fight prior to the game and there was plenty of coaching indecision going on at PSU with New England's OC Bill O'Brien rumored to be the new HC. It was PSU's first bowl without Joe Paterno as the HC since 1962. Case Keenum's 227 yds passing in the 1Q set the record for passing yds in any quarter in any bowl with Louisville's Browning Nagle's 223 vs Alabama the previous record in the 1991 Fiesta Bowl. PSU star DL Devon Still was slowed by a turf toe. PSU's D got better in the 2H and allowed just 2 FG's. UH finished with a 600-306 yd edge but PSU had 3 shanked punts and some crucial missed opportunities by Bolden and UH came away with a 30-14 win. UH was our most improved team of the year coming into the season and they finished with the most improved record of any team in college football.

CHICK-FIL-A BOWL Auburn (-2) 43 Virginia 24 - Auburn susp'd RB Michael Dyer and also lost their DC but OC Gus Malzahn despite taking a HC job, stuck around to call plays. Chizik took over the D and Onterio McCalebb rushed for 109 yds and 1 TD. AU started Clint Moseley at QB but after he hit 1-4 passes for 6 yds he injured his ankle and Barrett Trotter played the rest of the game hitting 11-18-175. AU also blk'd 2 punts and rec'd an onside kick. UVA's top 2 def players (CB Minnifield and LB Greer) DNP due to knee injuries. One year after winning the National Championship Auburn came in 7-5. UVA wore orange helmets for the first time since 1978. AU missed a 44 yd FG and actually trailed 14-7 but led 28-14 when UVA got a 24 yd FG on the final play of the half making it 28-17. Surprisingly with Chizik coaching the D they allowed 295 yds to UVA in the 1H. Each team got a TD and both punted but AU blk'd the punt for a safety. AU ret'd the free kick 62 yds to the 15 but settled for a 45 yd FG, 40-24 (:47). AU got a 37 yd FG with 8:09 left and with 6:57 left, took over at the UVA40 and went on an 11 play drive taking a knee at the UVA4.

MUSIC CITY BOWL Mississippi St 23 Wake Forest (+6) 17 - MSU had a 4-0 TO deficit. Vick Ballard ran for a career high 180 yds and it was a very tough loss ATS for MSU. Ballard was 3 yds shy of Walter Packer's school bowl record of 183 rushing yards in the 1974 Sun Bowl. MSU starting QB Tyler Russell was limited with a sprained knee and DNP. Chris Relf was banged up and was not the same QB in the 2H but with Dylan Favre also out with injury, he stayed in. Relf hit 12-19-129 yds but had 2 int's and rushed for 64 yds on 15 carries. There were a couple of key plays that cost MSU the cover. MSU had a 382-287 yd edge but had a missed xp, and allowed a 46 yd FG that wobbled through the uprights and bounced off the back of the goal post with 3:27 left to only lose by 6 laying 6.5. One MSU TO was crucial as with :06 left in the 1H at the WF9 they opted to try to run 1 more play and were int'd in the EZ and came away with zero pts. They also fmbld at their own 28 setting up WF's first TD drive. They were SOD at the WF38 with 1:51 left 3Q. At half MSU had a 230-124 yd edge. On Wake's drive for the FG that gave them the backdoor cover, they converted on 4&1 and 4&3 during the drive. Mississippi St took a knee three times at the WF31 at the end of the game.

MEINEKE CAR CARE BOWL Texas A&M (-9) 33 Northwestern 22 - A&M was led by interim HC Tim DeRuyter and Pat Fitzgerald's main focus of the bowl prep was having the team carry a monkey around since they had not won a bowl game since 1949. Dan Persa set an NCAA record for career completion % (72.3%) hitting 25-37-213 yds. A&M led 30-7 but after they'd blown DD leads in almost every game this year, they did not feel safe. NU got a TD with 5:22 left to pull within 30-22 and get under the spread but A&M kicked a 31 yd FG with :30 left for the frontdoor cover. A&M lost OL Joseph Villaviescico during bowl week and played a motivated game with everyone wearing a helmet sticker. The crowd was heavy A&M and the roof was closed at Reliant Stadium. NU led 7-3 early 2Q (10:12) but a key play happened with :20 left in the 1H as NU punted and A&M ret'd it 35 yds to the NU40. A&M got a 40 yd FG to lead 20-7 and those 3 pts came in handy for the cover. NU got TD's with 11:15 and 5:22 left to get under the spread, 30-22 and A&M on their final game clinching drive got a 3&13, 21 yd pass to midfield, a 3&6, 29 yd pass to the 18 and the 31 yd FG came with :30 left after on 3&2 when a FD would have allowed them to run out the clock, they lost 4 yds and settled for the spread winning FG.

Jim Harbaugh followed up leading Stanford to a 12-1 season and its 1st BCS bowl win by taking SF to their 1st NFC West title since 2002. SF is 7-1 SU/7-0-1 ATS at home and while they've only outgained foes by an avg of 21 ypg owning an NFL best +19 TO's has set up a 28-11 avg score. They are 8-1 ATS vs non-div foes TY with a 23-14 avg score as despite being -37 ypg in those gms they are +13 TO's. NO went 9-2 ATS vs non-div foes TY with a 36-22 avg score with a +118 yd edge (2nd to PIT) with +1 TO's. NO beat a very different SF team 25-22 as a 5 pt AF on MNF in Wk 2 LY. SF had a 417-287 yd edge but 4 TO's killed their momentum as NO hit a 37 yd FG on the final play to win. NO is 5-3 SU/4-4 ATS on the road being +84 ypg (2nd best) but were -7 TO's. NO has broken the 500 yd mark in 6 gms TY while SF has only tallied 3 games of 400 yds offense.

Stability breeds success and for the 6th straight year Brees/Payton have a top 5 passing offense. In his L/8 gms Brees has destroyed pass defenses avg 341 ypg (72%) with a 27-4 ratio and his lowest QBR TY at home was 96.8 vs ATL. The diff in TY's #1 off is that 56% of the rec's and 47% of the rec yds are thru the RB/TE's which allows more blockers to get into play after the catch. NO's 56.7% rate on 3rd downs is the best since IND's 56.1% back in 2006. NO's #6 ground game is very underrated as no single RB is putting up big #'s but like NE, they play the back that fits the situation. For the 3rd straight year NO put 5 players in the Pro Bowl and all 5 are on offense. Graham broke Kellen Winslow's 31 year old record of 1,290 yds for a TE and is only in his 2nd year in the league. NO has had the same OL for 8 straight gms headlined by the best OG tandem in the NFL with Carl Nicks and Jahri Evans. NO didn't have a single defender voted to the Pro Bowl TY and after being 4th in rec's and 7th in pts LY they are 24th and 14th. After earning 25 takeaways LY they only have 16 TY. MLB Wilma has been playing with a sore knee and teams have gotten used to DC Gregg Williams' schemes. Williams still likes to disperse the pressure from all over as noted by the fact that SS Roman Harper has more sks than DE Will Smith. After finishing 28th and 22nd in our special teams rankings in '09-'10, NO has a top 10 unit TY thanks to Darren Sproles who has 1,000+ total yds on offense and 1,000+ KR yds TY along with a healthy 10.1 PR avg.

At the start of the year Alex Smith was viewed as being on borrowed time. Having been a 15 year NFL QB himself, Harbaugh has taken to the practice field and tutored Smith how to run his straight forward offense. SF's 2 TE set to allow them to control the LOS and give variety to the ground game. While the 49ers have yet to have a 1,000 yd receiver since they drafted Smith, Frank Gore has run for 1,000 yds in 5 of the L/6 seasons. Only DEN/HOU ran the ball more times TY than SF, as Gore had 5 straight 100 yd games in Oct/Nov as OC Greg Roman started to adjust for more passing from that point. WR Michael Crabtree finally started to mature into an NFL player TY and he likely would have had his first 1,000 yd ssn if not for another foot injury. The real #1 option in the passing game is TE Vernon Davis as 40 of his 67 rec's were for FD's. SF's passing game is muddled after that as while Kyle Williams has shown some flash they don't have another dependable quality option. This has led to their #30 red-zone finish as out of 193 off drives only 32 ended in a TD and only CIN's 30 had fewer among the playoff teams. SF's OL was much more stable with Anthony Davis and Mike Iupati in their 2nd snns as the 49ers started their L/13 games with the same unit. Pass protection is still an issue as they gave up 1 sk for every 10.3 att's. SF's #4 def is the best finish for an NFC West team since realignment thanks to their elite def front 7 TY. DE Justin Smith played at an NFL MVP level TY and sets the tone for the entire unit. Smith's 7 sks is actually impressive for a 3-4 DE and he often was the setup blk'r for Aldon Smith who came in for pass rush situations. Smith was a part of the best LB unit in the NFL TY along with All-Pro LB Patrick Willis and NaVorro Bowman who dominated in his 1st ssn as a starter. With SF having the #1 rush def TY (69 ypg, 3.2 at home), their #16 pass def is a bit misleading as they are 1 of 5 tms with more int than pass TD's allowed. SF simply owns the best spec teams unit TY thanks to picking up one of best STC coaches in Brad Seely.

NO has logged B2B games of 600+ yds on offense & now take on the #30 red-zone offense. The 49ers have played fantastic defensive ball TY but are now taking on an elite QB with all of his weapons. SF has the #30 red-zone offense & NO has the weapons to take SF out of its ball-control element quickly.

The Packers are the #1 seed in the NFC for the 1st time since 1996 thanks to the 6th 15-1 record in the NFL history. They are a stellar 17-1 SU/14-4 ATS at home and have won all 8 HG's for the 1st time since 2002. GB has outscored foes 40-21 at home TY despite being outgained by an avg of 4 ypg (+2 TO's). Mike McCarthy is 23-1 SU/20-3-1 ATS at home when GB scores 30 or more. GB beat the Giants 38-25 but failed to cover as a 6.5 AF. Both QB's combined for over 700 yds passing with GB going 68/5pl in :58 to hit the game winning FG as time expired. The Giants went 5-3 SU/ATS on the road TY being outgained by 12 ypg (+4 TO's) but on the short end of a 27-26 scoring avg. They are however 4-1 SU/5-0 ATS on the road in the playoffs under Coughlin with a 21-18 avg score.

Statistically, Eli Manning isn't that far off from what you'd expect from him but he's had arguably his best season ever. Working behind 5 different OL combos, 2011 was another year with skill players being dinged up, yet Manning managed to throw for a career-high in passing yards. The Giants have their 1st 1,000 yd duo of receivers in Hakeem Nicks and Victor Cruz. Nicks has been a reliable but not overly splashy as the #1 WR while Cruz has been the 2nd best slot WR in the NFL TY behind Welker. Mario Manningham is now the possession WR and when healthy Jake Ballard is a solid receiving TE. Bradshaw and Jacobs each have a single 100 yd rushing game TY due to injuries to themselves and the OL. They are built to be a power rushing team and are much better than their #31 rush off ranking. The best player on the Giants #27 defense TY has been Jason Pierre-Paul whose 16.5 sks is quite impressive as he entered 2011 as the #3 pass rusher for the team. The LB's are avg even behind a strong DL, but the secondary has been a major liability TY due to a lack of depth. They've given up five 300 yd passing games avg 335 ypg (58%) w/a 15-3 ratio in those. This is another unit getting healthier late in the ssn though and SS Kenny Phillips has been excellent when healthy. The Giants spec tms aren't much better than 2010's #29 unit as they've struggled on both sides of the ball on punts and are below avg on KR's.

GB is the 1st team to finish dead last in overall def but finish with the best record in the NFL. Part of this is because the Packers have kicked-off 30 more times than they've rec'd due to their #3 off. In fact, GB has scored more pts in the 1H (286) than CLE, IND, JAX, KC and STL have overall. This is due to Rodgers destroying the NFL starting with his playoff run LY. Over those L/19 games he's avg'd 302 ypg (68%) with an astounding 54-8 ratio. His 9.05 ypa avg in that span allows the Packers to be very aggressive in their playcalling and makes their #27 run game TY a non-factor. Seven Packers have logged 25 or more rec's with James Starks being the only non-TE/WR out of the group. Greg Jennings is a clear #1 WR and finished 25th in rec yds in the NFL despite missing the final 3 games with a knee injury. Jordy Nelson had breakout year with 5 fewer yds than his previous 3 snns combined despite playing in fewer snaps than Jennings. Donald Driver has now settled into a more of a situational role due to the depth here while Jermichael Finley was rough early on after missing most of LY with a knee injury. While GB didn't have a single 100 yd game from Ryan Grant or Starks, they are really extra blockers for the pass gm and emergency receiving outlets. GB has started 6 different OL combos due to injury which accounts for the #22 ranking in sks allowed along with the QB's tendency to hold onto the ball to make plays. In 2010, Dom Capers def was 5th with 32 takeaways and TY they tied with SF for #1 with 38. Yes, they have the #32 pass defense but they also lead the NFL with 31 int
