NEWS AND NOTES - WEEK FIVE 2011

NEWS AND NOTES - Iowa used the hurry up offense to make a big comeback vs Pitt the previous week overcoming a 17 pt 4Q deficit. They stayed in the hurry up vs ULM. UI scored TD's on their first 2 drives and ULM went on a 57/14pl drive in between but settled for a 43 yd FG. Later ULM was SOD at the UI20 on a 4&4 dropped pass with 4:10 left in the half trailing 21-3 and UI marched 80/8pl getting a TD with 2:07 left in the half. That gave them a 28-3 lead with a 294-134 yd edge. ULM scored TD's on their opening two 3Q drives to make it 35-17 but UI scored a TD and a 32 yd FG on their next 2 drives to ice it...Michigan St bounced back off the Notre Dame loss taking advantage of 4 CM turnovers. They led 7-0 after 1Q when CM was int'd on their next 3 poss. The 2nd of the int's, MSU ret'd directly for a 37 yd TD and they converted on the other two into a TD and a FG to lead 24-0. At the half MSU was up 31-0 and did have a 256-47 yd edge. CM had beaten MSU 29-27 on a last second FG when they last met in 2009. This time MSU finished with a 481-112 yd edge and ended the game at the CM26 taking a knee in the 45-7 win...Memphis suffered another demoralizing defeat with the stadium half empty for Homecoming. They were mauled by SMU 42-0. UM got into the RZ once which was late 1H when they got to the 10 yd line but their 4th down pass fell incomplete. Taylor Reed started and hit 17-32-153. SMU scored TD's on their first 2 poss, fmbld at the UM37 then actually punted twice before going 47 (after 33 yd PR) and 44 yards for TD's to lead 28-0. They also got to the 20 and were int'd in the EZ and had a 302-117 yd edge at the half. SMU did only lead 28-0 after fumbling at the UM5 in the 3Q but went 88/15pl and got a 3&14 TD pass with 7:51 left then after a fmb went 13/3pl for another TD to lead 42-0 with 6:10 left...Denard Robinson rushed for a season high 200 yds vs SDSSt but did hit just 8-17-93 yds passing. SDSSt actually had a 20-18 FD edge and UM only a 413-376 yd edge. SDSSt had won their first 3 games for the first time since 1981 but were matched up vs their former HC who knew them inside and out. UM led 21-0 at the half. In the 1H, SDSSt fumbled at the UM39, was SOD on 4&3 at the UM29, had a FD to the UM18 called back on a hold and ended up punting. UM was int'd on their first two 3Q poss and missed a 40 yd FG then fmbld at their own 38 setting up the Aztecs only TD, 21-7 after 3Q's. SDSSt was SOD on 4&2 at the UM43 and UM went 57/4pl for a TD with 6:29 left. The Aztecs fumbled at the UM33 and on 4&10 from the UM13 had the pass dropped at the 1 at the end...Bernard Pierce set a school record with 5 rushing TD's as Temple, which gave Penn St a good fight the previous week, absolutely throttled Maryland leading 31-0 at the half and 38-0 before MD got a TD with 4:31 left to avoid a shutout. MD wore "wounded warrior" jerseys (black, yellow and red) and the profits from an action are donated to a wounded warrior project. QB O'Brien was sk'd for the first 3 times on the year. TU drove 74, 78, 7 (after punt blk), 93 and 66 yards for 4 TD's and a FG on their five 1H drives while MD punted on their first 4 poss and were SOD at the TU10 on their last. MD got an 80/8pl drive for a TD with 4:31 left to avoid the shutout and TU even finished with a 1st & gl at the 2 taking a knee...Mohamed Sanu set a Rutgers school record with 16 rec's but for just 176 yards. Tyler Tettleton threw for 339 yards for Ohio while Rutgers only had a 410-404 yd edge they turned three 1H TO's into TD's for a 21-7 lead. Ohio fumbled at their own 29 setting up a 5pl drive for a TD and OU drove 26 yds for a TD after an int. OU fmbld at the RU37 with 5:43 left in the half trailing 14-7 and after RU got 1 FD & punted, OU not only fumbled the punt, but RU fell on it in the EZ for a TD and a 21-7 lead with 2:30 left in the half. OU pulled within 28-20 and had the ball at their 46 but fmbld again setting up a RU FG and RU then went 80/13pl with a substitution infraction on 4&1 giving RU a FD at the OU11 and they got an 11 yd TD pass on the next play to put it away 38-20 with 5:00 left. OU went 88/12pl getting a TD with 1:39 left...Teams off losses have been pummeling their FCS opponents and Boston College did just that to Massachusetts, even though they only finished with a 389-313 yd edge. Kellen Pagel is the UMass QB and he is ex-NFL QB Mike Pagel's son. On his first pass on the first play of the game he was int'd and BC drove 47 yds for a TD. BC was up 17-0 when UM got a 100 yd KR TD to get within 17-7 but at the half BC had a 213-103 yd edge and led 24-7. BC got an 18 yd FR TD to go up 38-10 with 1:17 left in the 3Q and UM went 76/13pl. On 3&gl from the 1, Pagel was int'd and LB Pierre-Louis ret'd it 96 yds for a TD to make it 45-10 with 12:28 left. UMass gained 93 of their yards after that on their final 3 drives incl a 69/6pl garbage TD...Ball St dominated as in the 1H they had a 333-101 yd edge. It was 7-0 when Army drove 48/12pl and missed a 32 yd FG. BS then went 80/6pl, 7/11pl, 17/6pl (after int) for TD's and went 56/11pl settling for a 21 yd FG on the final play of the half to lead 31-0. It was 45-7 after 3Q's and Army drove 80/10pl for a TD with 12:49 left and each team would get a TD in the final 3:00...Toledo lost RB Adonis Thomas in the 1Q and was missing 4 starters on defense. UT appeared in control early leading 10-0 after 1Q but Syr took a 30-27 lead on a score and a missed xp which somehow was called good by the Big East officiating crew and was not overturned via replay with 2:22 left. UT's opening drive was 75/22pl and they settled for a 20 yd FG and later UT was SOD at the Syr 31. The game was tied at 13 and 20 and UT got a TD with 10:54 left to take a 27-23 lead. Syr punted but then took over with 6:51 left and went 71/10pl for a TD and the lead. UT, after a PF face mask, had a 1st & gl at the 9 threatening for the win but settled for the tying FG and OT and was int'd in OT while SU got a FG. The BE issued a formal statement 2 hours after the game admitting the officials erred on the xp call... Georgia dominated Mississippi more than the final as they had 25-8 FD and 475-183 yd edges. UGA was int'd at the UM41 but still led 17-0 when QB Rebs Mackey lined up at WR and threw a 38 yd TD pass on a reverse. With just 1:26 left in the half, UGA was up comfortably, 24-7 when UM ran a reverse on the PR and went 81 yds for a TD to make it 24-13. In the 3Q UGA missed a 48, 48 and 35 yd FG's and Blair Walsh had 15 misses on 73 career FG's and had 3 misses here. UM was SOD on 4&10 at their own 33 and Walsh finally hit a 43 yd FG with 4:16 left for the 27-13 final margin...The Irish had a 398-268 yd edge but only led at the half 7-6 because of a 79 yd Gray TD run. ND was int'd at the Pitt5 and missed a 39 yd FG on the 1H. They had a 258-143 yd edge. Pitt had its opening 3Q poss kept alive by roughing the P and they got a TD for a 12-7 lead. The next 4 poss were punts. The Irish took over with 11:28 left and went 85/11pl getting a TD and 2 pt conv with 6:48 left. Pitt got to the ND40 but on 4&25 fired incomplete with 2:24 left...It was unusual to see that Miami and BG combined for 60 points yet BG only had a 310-308 yd edge. BG got an 18 yd TD drive after a fumble and UM got a 6 yd IR TD in the 1H. BG blk'd a punt and rec'd at the 1 setting up a TD and led 20-17 at the half. BG opened it to 20-17 when UM got a TD with 11:03 left but BG fumbled the KO at their own 3 and faced a 2nd & 9 when Anthon Samuel set a school record with a 96 yd TD run. The TD was also a stadium record to put it away. UM's last shot ended on an int in the EZ with 2:20 left...Florida St was off their big game vs Oklahoma which they had looked forward to for 9 months and also was starting backup QB Clint Trickett who looked pretty good. Trickett hit 24-38-336 yds in his first start. He led FSU 67/8pl for a 32 yd FG. Clemson went 80/7pl for a TD then roughing the P gave them a FD and they went 77/8pl for a TD. They were up 21-10 at the half with a 227-168 yd edge. FSU got a 25 yd IR TD on the 4th play of the 3Q to get back in it 21-17. After a punt CU went 70/12pl for a TD, 28-17 but FSU went 80/7pl to make it 28-23. CU got a 62 yd TD pass, 35-23 (13:06 4Q). FSU went 78/4pl for a TD, 35-30 (7:21). CU was SOD on 4&1 at the FSU24 (2:49). FSU got to the 37 but on 4&9 Trickett was sk'd with 1:37 left...Oregon St fell to 0-3 for the first time since 1996. OSU did have an 85 yd PR TD just before the half to get back in this one. It was the 2nd longest PR in school history. OSU finished with 375-357 yd and 22-17 FD edges. They went on an 82/17pl drive to open but settled for a 25 yd FG. UCLA went 80/3pl for a TD then after an int went 46/7pl for a TD and after a fumble went 4 yards for a TD and led 21-3 with :32 left in the half UCLA punted and OSU got an 85 yd PR TD. At the half UCLA had a 209-138 yd edge and led 21-10. OSU pulled within to 21-19 but missed the 2 pt conv on the final play of the 3Q. UCLA got a TD with 6:15 left but the xp was blk'd leaving OSU within 8. They were SOD on 4&8 at the LA22 with 2:12 left and UCLA got 2 FD's and ran out the clock...Tulane did not force Duke to punt until the 4Q and Duke finished with a 484-318 yd edge despite the fact TU drove 77/8 and 96/11 for TD's in the final 10:37 while Duke gained just 29 yards in that span after leading 48-13. TU was off an upset as a DD underdog on the road and wilted for the 2nd straight time in that situation...Trent Richardson rushed for 126 yds and added 85 yds in rec plus 24 KR yds. Alabama had a 210-89 yd edge at the half but only led 17-7 but Maze got an 83 yd PR TD. Richardson took a screen pass 61 yds for a TD and Bama rolled to a 38-14 lead after 3Q's before playing conservative in the 4Q...Houston rolled to a 56-0 rout of Georgia St. They had a 732-241 yd edge...The UAB/E Carolina game was very interesting. EC turned it over 7 times but still managed a 28-23 win. UAB also had 3 TO's incl an int in the EZ in the 2Q. EC led 14-10 at the half when they gave up a 35 yd IR TD. The Pirates still appeared poised for the cover. They drove 62/6pl and 80/6pl for TD's, 28-17. UAB QB Ellis was ? coming in and was taken off on a backboard and backup QB Perry fumbled. EC took over at the 50 and drove 50/7pl but going in for the spread covering TD with 13:29 left, Dobson fumbled into the EZ for a TB. Perry led UAB 80/6pl incl a 51 yd pass and the TD made it 28-23 with 10:58 left. EC35 was driving for the clinching score and was at the UAB15 on 2&5 when they were int'd at the 9. UAB9 took over with 7:02 left at their own 9 and went 73/17pl. Looking for the game winning TD on 4&8 from the 18, they fired incomplete in the EZ with 2:22 left and EC got 1 FD and ran out the clock. EC did have a 542-400 yd edge...Louisiana Tech had a costly int in the 4Q or would have upset Miss St. MSU had 10 pts via spec tms as they got their first

PR TD S/07. It was a 72 yd punt that Bumphis ret'd 82 yds for a TD in the 1Q. LT led 10-7 but MSU rallied to lead 17-10 at the half. MSU took a gamble in the 3Q going for it on 4&1 at their own 34 and was SOD and LT got a TD 6pl later to tie it but then LT fumbled a punt on their own 25 setting up a MSU FG and trailed 20-17. With 8:42 left, LT got a 28 yd FG to tie. They took over at their 20 with 6:50 left and got 3 FD's to the MSU20. On 3&5 from the 20, Isham floated a pass in the corner of the EZ which was int'd for a TB and the game went to OT. Isham tossed another int on the 2nd play of OT and MSU on 2&2 got a 17 yd TD pass to Perkins to pull out the win. LT had a 359-340 yd edge...Western Michigan settled for too many FG's in the 1H. They had a 227-200 1H yd edge but missed a 44 yd FG, went on an 18pl drive and missed a wide open rec on 1st & gl settling for a 26 yd FG, missed another FG, this one from 49 yds and went on a 13pl drive and settled for a 24 yd FG. At the half they only led 13-10. Illinois battled back to lead 20-13 but WM tied it with 13:58 left. UI got a 21 yd FG with 8:14 left for the lead. WM punted with 5:59 left and IU did a good job getting 3 FD's before being SOD with 1:05 left and WM having no time-outs left. WM got 2 FD's but too many of the plays were in bounds and they ran out of time at the IU41.

cont. from Front Page ... Troy won its 6th straight vs Middle Tenn despite being outgained 582-479 and not taking their first lead until 1:11 was left in the 3Q. They named the field at Veterans Memorial Stadium Larry Blakeney Field. MTSU led 28-24 when they settled for a 42 yd FG and missed it. Troy got a 75 yd TD pass on the next play and they forced 2 MTSU punts while scoring a TD and Troy led 38-28. MTSU got a TD with 3:18 left then forced a punt and got it back with 2:53 left and got to the Troy 35 but on 4&5 were int'd at the 17....Kansas St delivered an Underdog POW win on these pages with their outright upset. The Wildcats QB Collin Klein was very impressive hitting 12-18-133 while rushing for 93 incl a crucial 26 yd run on 2&29 pinned at their own 3. K-St led 14-3 at the half and missed a 46 yd FG to open the 3Q. They still led 21-10 but UM got some big plays like a 59 yd TD run by Miller and a 34 yd TD pass to Benjamin and took a 24-21 lead. KSU answered with an 80/8pl drive for a TD. Each team punted but KSU only got off a 20 yd punt with 3:52 left and UM was able to get down to the 2 yd line. On 4&g from the 1 Harris took off to the left and was clearly down and it didn't even look like the ball ever crossed the goal line but he was awarded a TD. Replays marked the ball at the 1.5 yd line and KSU held on for the outright upset...For the 3rd straight year Oklahoma St came back from a half time deficit. Brandon Weeden threw for a school record 438 yds and 2 scores. A&M appeared in complete control scoring on 4 of their 1H poss while OSU had 3 punts. OSU scored TD's on their first 3 poss of the 3Q while A&M punted, fumbled at the OSU44, was int'd at their own 23, int'd at their own 34, and punted on their first 5 poss. They trailed 30-20 when they drove 80/15pl for a TD with 2:20 left. They forced a punt with 1:47 left but turned it over again on an int on 2nd & 9. On the last play of the game OSU with :05 left opted for Blackmon to race 39 yds into the EZ for a safety which skewed the rushing stats a little as they lost 55 yds on the final 4pl and made the final 30-29...We used Nevada as a Big Dog POW and unfortunately they could not hold on to a 28-13 lead mid3Q. Texas Tech on 4&4 with :36 left got a 4 yd TD pass to pull out the 1 pt win. Doege looked stymie as he took the snap on the final score, back peddled to the 17, scanned for an open rec, nobody to the middle, right looked left and found the TD. Nev alternated QB's Cody Fajardo and Tyler Lantrip but Fajardo's 139 yds rushing were a spark. TT was without top WR Moore for most of the game (inj'd ankle 1Q). The key to the game was that Nev went on an 83/12pl, 63/11pl and 78/12pl drives that resulted in 3 FG's of 31, 25 and 21 yds. Not only did they settle for those FG's, they missed the 13 yarder and lost by a point as TT on 4&g from the 4 had the QB scramble back to the 17 before hitting a TD pass with :36 left and TT pulled out the win...All week Tulsa QB GJ Kinne was doubtful to play and while he did play, he hit just 14-24-123 yards. TU did not cross midfield in the first 38:30 of the game. Boise had a 307-90 yd edge at the half leading 27-0 and scored a TD to open the 3Q to lead 34-0. Kellen Moore's day was done and the backups played the rest where TU got 3 TD's after that including a 59/8pl drive for a garbage TD with 3:19 left making the game appear closer than it really was...Baylor punted on their first poss vs Rice but scored TD's on the next 5 poss. They did have 2 short fields with a 28 yd PR setting up a 43 yd TD and a fumbled KR setting up a 21 yd TD drive. It was 35-17 when RJ3 fmbld'd at the end of a 26 yd run at the Rice4 with :36 left. BU had a 381-211 yd edge at the half and 673-416 yd edge for the game.

THE MOST UNIQUE POWER RATINGS IN THE COUNTRY

These Power Play Forecasts are the most unique in the country because they are based on **Northcoast Sports' Private Power Ratings**. Our ratings are unlike any computer rating, as we take into account all of the following: Strength of Opponents Individual Units (Rushing Offense and Defense, Passing Offense, & Defense, Scoring Offense and Defense, Garbage Yards, Weather, Injuries, Home Field Edge, and Successful Unbalanced Attacks). Here is how each is reflected:

Strength of Opponent: Our ratings do not just take the opposing team's overall power rating into account. For example, in 1992, Washington's defense vs the rush was rated at a "110" (From 1-100). They faced Colorado and allowed 183 yds rushing and **dropped 12 spots** in the national rushing defense ratings. However, Power Plays took into account the potent Buffalo run attack and had forecasted the Huskies yielding 225 yds. Due to the fact they did better than the forecast, Power Plays raised their rating to 112 even though they slipped in the national (straight yardage) rankings. Another example was Michigan vs Purdue in 1989. Michigan held Purdue to just 45 yards rushing and improved their ratings in rushing defense in the national statistics. However, our ratings had them rated at a 102 and moved them down to 99, as they should have yielded just 32 yards to an impotent Purdue rush attack. Next time an announcer on TV tells you that a certain team is #3 in the country vs the run **you better check Northcoast Sports' Power Ratings and see how good a rush defense they really have!** The top twenty ratings in Power Ratings for each offensive and defensive category will be listed in each week's issue of Power Plays.

Garbage yards: These are yards that a team gains or allows in the final minutes of a game when it has been decided. For example, Team A is ahead 63-0 and allows 93 yards passing for a TD vs its fourth string defense. These yards are **counted** into national ratings, **but not in Northcoast Sports' Power Ratings!**

Weather: If a game is played in miserable weather conditions and is low scoring, the straight statistics credit the defense with outstanding performances. Our Power Ratings reflect the conditions and do not give excess credit to the defenses.

Injuries: When South Carolina played NC State in 1989, South Carolina QB Todd Ellis was injured on the third play of the game. His backup, who had seen very little action all year, was not prepared and hit on just 4 of 13 passes for 65 yards. The offensive coordinator did not risk any passes. In the national statistics NC State's pass defense **MOVED UP 14 NOTCHES**. In Phil's Power Ratings they **stayed the same**, as the low yardage WAS NOT reflective of an outstanding performance by the defense.

Home Field Edges: The weekly projection of yards and points is weighted with the home field factored in.

Successful Unbalanced Attacks: In 1989, Ohio St was held to 127 yards passing vs Northwestern. This dropped OSU in the national passing offense ratings & RAISED the Wildcats in the pass defense ratings. In our ratings the two units **remained** rated the same. Why? OSU rushed for 456 yards & DID NOT HAVE TO PASS & when they did they hit 9 of 11 passes, which is VERY effective. While Northwestern's pass defense looked good in the national ratings, only Northcoast Sports' Power Ratings reflected the TRUTH!

There you have it. More than just numbers, THESE RATINGS REFLECT the true strength of each unit and allow them to have the **most accurate forecast of yards gained and points allowed in the country!** No other rating system takes into account all the previous factors. Next time you hear that a team is rated third in the country in pass defense, just remember, yards are not everything and Northcoast Sports' Power Plays will show you how strong the team really is.

NORTHCOAST SPORTS PLUS OR MINUS POWER RATINGS

The Power Ratings listed below are not based on the Power Plays, they are based on last year's final computer power rating numbers with the pluses and minuses from the off season changes factored in. They are then adjusted during the course of the season based on the final score of the games that are played on a weekly basis. The Power Ratings listed below can be used for you as a base power ratings to forecast up coming lines and strength of opponents, etc. Once again, they are not based on Power Plays and **they differ from what we have shown in recent years**, which has been our actual computer Power Ratings. 2011 COLLEGE POWER PLAYS RANKINGS

Listed below are Northcoast Sports' Power Play Rankings. These Power Play Rankings are unique. Our rankings are unlike any computer ranking, as we take into account all the following: Strength of Opponents, Individual Units (Rushing Offense, Rushing Defense, Passing Offense, and Passing Defense) Garbage Yards, Weather, Injuries, Home Field Edges, and successful Unbalanced Attacks. Regular rankings based solely on numbers DO NOT take into account these factors.

Welcome to this week's issue of Power Plays. The Power Plays Newsletter consists of forecasts that are made by a special Power Plays rating system. This is a system developed many years ago and we regard it very highly. In our final analysis of the plays the Power Plays forecast takes up anywhere from 25 to 30% of our total analysis. You will see in the Power Plays Newsletter in the write-ups that we agree with the majority of the Power Plays forecasts. However, there are times when we will disagree with the Power Plays forecast. We want to make it clear that this is the Power Plays Newsletter and these forecasts are based purely on the power ratings. You should never use just one method, system or angle to determine your handicapping. The times that we disagree with the Power Plays Newsletter we will clearly note it. If the Power Plays rating is strong enough to be a 4★ Play, yet we are on the other side of the game, we will clearly state that we like the other side of the game.

ILLINOIS	261	198	30	2.2	—

We disagree with PP in this one. The forecast is for the Illini to have a 459-358 yard edge but you must make an adjustment with NW QB Persa back. NW is 7-2 ATS as a conf AD the L3Y.

We like the dog in this one as Michigan's offense will only go as far as D-Rob takes them and if UM is up late there is no reason to risk injury by running him. Minny is off a FCS loss but will surprise.

No problems backing UVA with PP calling for a 509-233 yard edge. Idaho backdoor'd A&M (has OSU on deck) in their last road game but the Cavs are off B2B losses, have gone 3-0-1 as HF under London and have a bye on deck. That insures they'll stay focused and roll it up.

PRO FOOTBALL OCTOBER 2-3rd, 2011

Just a quick note for our Power Plays Subscribers. Obviously this newsletter is based upon statistical numbers and rankings that are used to develop the projections you see here. As with all types statistical information the more numbers that one inputs ordinarily the stronger the accuracy of the results. Therefore, one would expect the projections to be more reliable after a number of weeks worth of stats are input. Keep in mind Power Plays does not factor weather or intangibles into its projections.

DETROIT	50	285	31	1.7	#15
DALLAS	91	335	27	2.4	#20

With their 1st win in MIN since 1997, the Lions have matched or surpassed their win totals in 5 of the L10 seasons. While they rebounded from a 20 pt deficit on the road to do so the Vikings did show that the Lions OL is vulnerable (5 sks 7 QBH) on the edges. DAL is off LW's MNF and their injury situation is unknown. However, DET is on a 13-5-1 O/U run avg 46 ppg while DAL is 15-3 O/U avg 51 ppg since the start of 2010 and we'll lean with PP's 58 pts & 761 yds projection here.

NEW ORLEANS	80	310	35	1.9	#4
JACKSONVILLE	130	195	16	2.2	#3

NO is off an exciting win as our Sept NFL GOM as while they did give up yards to HOU they won the redzone battle giving up 4 FG's & 2 TD's. Brees had 246 yds (74%) with a 3-1 ratio after halftime adjustments. JAX switched to Gabbert LW and he had a rough start with 139 yds (57%) with a 1-1 mark in poor field conditions. NO has road games vs CAR & TB on deck & PP only gives NO a 65 yd edge here so we'll limit the grade.

SF is staying at Youngstown St to reduce travel issues. SF managed a 13-8 win LW despite not getting into CIN territory until mid-3Q. They now go from a quiet uninterested venue (43,363 fans for CIN home opener) to a truly loud & hostile venue. Vick (brkn hand) is expected to miss 3-4 games & its unknown if Kafka or Young will get the start here. PHI still has big edges on both sides of the ball & will be very angry after losing to the Giants and crisp to compensate for the loss of their QB. Minus a real line though this is a No Play.

ST LOUIS	128	250	21	2.1	#11

Both teams have a bye on deck but STL has the situational edge at home for the 2nd week vs WAS off a MNF road game vs the arch-rival Cowboys. STL beat WAS 36-16 as a 4.5 pt HD LY & despite an 0-3 mark are better than LY's team. RB Jackson got work in limited duty vs BAL & after giving up 500 yds LW STL will be focused on both sides of the ball. No line though means No Play.

TENNESSEE	104	218	21	2.0	#14
CLEVELAND	111	223	20	2.1	#22

Both teams are off close wins at home but TEN's was much more costly as they lost WR Britt (ACL/MCL) for the season. CJ2K hasn't accumulated 100 yds in 3 games & defenses will now key in on him as the Titans receiving threats are not very impressive. CLE's 1 pt win LW was a major confidence booster in the new defensive scheme & McCoy's clutch game winning drive won even more of the team to him. PP calls for even yards here with TEN getting the close win but without Britt this is a No Play.

NO PLAY: TITANS 21 BROWNS 20

BUFFALO	114	210	27	2.0	#25
CINCINNATI	124	230	21	2.6	#12

BUF is the 1st team in NFL history to rally from 18 pts deficits to win B2B games. The highest drafted player at WR/TE is a 4th RD DC & Fred Jackson was an UFA in 2006. They are in a natural let down spot vs CIN who could be without RB Benson & Dalton struggled vs SF's 3-4 LW which BUF employs a lot of. This is BUF's 1st AF role since Wk 14 2009 & they won't be able to use the "us vs them" card in a venue that expects less than 40,000 fans this week. PP calls for CIN to have the yd edge here & this is a No Play.

NO PLAY: BILLS 27 BENGALS 21

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
MINNESOTA	135	165	22	1.9	#17
KANSAS CITY	127	223	19	2.7	#28

MIN has blown 10, 17 & 20 pt leads to open the season & are the only NFL team w/o a TD in the 2H. Harvin left LW's game with an illness in the 2H w/a illness allowing DET to focus on Peterson (5 yds rushing 2H). KC may have only lost by 3 to SD LW but they had 0 FD & 34 yds in the 1H. KC's front 7 is no where near as good as DET's & Cassel's 5.22 ypa is behind only Kerry Collins (4.91). PP has this right at the line so this is a No Play.

NO PLAY: VIKINGS 22 CHIEFS 19

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
CAROLINA	84	210	14	2.9	#32
CHICAGO	90	248	24	1.8	#1

After putting up huge numbers in B2B losses, Newton had to settle for a tough hard fought victory on a drenched field vs JAX LW. CHI's OL is simply not equipped for Martz's pass heavy style (114 att's vs 51 rushes), neglecting a solid playmaker in Forte. PP leans with CHI here but we think CAR will play hard for Rivera who was a LB for a Bears SB team (1985) and a DC (2006) for another.

NO PLAY: BEARS 24 PANTHERS 14

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
PITTSBURGH	79	255	22	2.2	#23
HOUSTON	83	258	28	1.7	#21

PIT was in lookahead mode vs IND LW as while they had a 408-241 yd edge their 3 TO's made it a tougher than expected game. HOU is the type of offense PIT can have problems with as they can spread the ball around and go after the Steelers in coverage. HOU moved the ball pretty well vs NO LW but got mired in the redzone LW. PP leans with the home team in a higher scoring game but without a line this is a No Play.

NO PLAY: TEXANS 28 STEELERS 22

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
ATLANTA	100	253	28	1.2	#18
SEATTLE	62	210	15	2.7	#8

ATL was worn out after their big win vs PHI on SNF TB used the heat/humidity, grass field to their advantage wearing them out on the ground with 36 att's (3.2) to 15 att's (2.0). SEA did a good job of playing within itself vs ARZ & made the most of WR Rice in his 1st game (8 rec 13.6). ATL has talent edges on both sides of the ball, and won here late LY 34-18 as a 6 pt AF. PP gives them a 13 pt margin but only an 81 yd edge tempering the grade.

2★ FALCONS 28 SEAHAWKS 15

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
NY GIANTS	140	258	27	2.3	#29
ARIZONA	60	233	16	2.4	#19

The Giants beat PHI with physical play LW KO'g Vick with Manning having an excellent game (254 yds 70% 4-0) vs an elite secondary w/o #2 WR Manningham. ARZ should get Wells (hamstring) back for this but the bigger concern is their #27 defense. PP gives the Giants a 105 yd edge on the road with a comfortable margin making them the play.

4★ GIANTS 27 CARDINALS 16

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
MIAMI	79	195	16	1.9	#13
SAN DIEGO	83	315	25	2.1	#27

MIA is 0-3 with a bye on deck & barring a Jim Fassel type run its now between Sparano & Haley to see who gets released 1st. MIA controlled CLE for most of the game but couldn't make a stop in the 4Q when it mattered the most. SD may not have Gates (foot) again and Floyd (groin) was limited LW. PP gives SD who has a road game vs DEN on deck a 124 yd edge but has it at the line so No Play.

NO PLAY: CHARGERS 25 DOLPHINS 16

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
DENVER	52	238	15	3.1	#6
GREEN BAY	107	328	35	2.2	#30

GB is off a big win vs CHI which could have been worse. GB opted to work on their run game instead of blowing away the Bears in the passing game. GB only allowed 2 drives over 35 yds (138 yds on rest) & now get a DEN offense that has only scored 20 pts in the 1H so far. PP gives GB the 2nd biggest yardage margin this week (+145) but with this line being so large we'll temper the grade.

3★ PACKERS 35 BRONCOS 15

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
NEW ENGLAND	115	373	39	1.4	#16
OAKLAND	143	265	27	1.9	#10

Brady's 4 Ints LW matches his entire total for 2010 as NE blew a 21 pt lead to BUF. Hidden in the boxscore is the fact NE was w/o 2 offensive starters (Hernandez, Vollmer) & 3 key defensive players (Haynesworth, SS Chung, CB Dowling). OAK was in a good situation LW angry after losing to BUF on the road & getting the Jets coming cross country w/o the best Ctr in the NFL in Mangold. Former NE DL Seymour will have the Raiders focused here as this is their 1st legit challenge vs a proven offense. PP leans with the visitor w/a manageable line.

3★ PATRIOTS 39 RAIDERS 27

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
NY JETS	82	210	16	2.5	#2
BALTIMORE	120	190	25	1.9	#5

BAL won LY's Rex Ryan reunion 10-9 as a 1 pt AD on MNF in a physical matchup. The Jets have a brutal slate before their bye & this has tiebreaker potential later in the year. BAL got right LW vs the Rams but the Jets are a much more proven team. **Get this play on the Northcoast Debit Card System for only \$9 after 11:00 am ET on Sunday. IND came close vs PIT on SNF LW but were handed their 3rd loss of their year. The offense may get its wish as Painter could start at QB here. TB hasn't been a DD favorite since 2008 going 0-2 ATS & this is a large line for a young team. **We are offering a MONEY BACK PLUS Guarantee on MNM through the Northcoast Debit Card System - take advantage on Monday night after 3:00 pm ET!
