NEWS AND NOTES - WEEK SEVEN 2011

NEWS AND NOTES - Boise St showed remarkable dominance vs Fresno St and actually scored 111 straight points vs Fresno St until a PR TD by the Bulldogs on Friday night. In 2010 they beat FSU 51-0 at home and had scored the final 10 points in 2009. Boise led 37-0 when FSU gained 73 yards in the final :20 of the 1H. Boise pulled QB Moore leading 43-0 in the 3Q and was up 50-0 After 3Q. BSU cruised to a 57-7 win with a 464-270 yd edge...Purdue got their largest margin of victory in a Big Ten game since 2008. MarQueis Gray did return to the lineup for Minnesota and threw for 104 yards and rushed for 20. It was Minnesota's 2nd straight blowout loss and turnovers fueled it. After a 26 yard punt, PU went 39/7pl for a TD then went 36/11pl for a 53 yd FG. Then, after a fumble went 11/7pl for a TD then got a 37 yd IR TD and led 24-0 after 1Q. PU led 31-3 at the half with a 180-85 yd edge. They extended it to 45-10 before Minny got a TD with 7:55 left...Tyler Russell replaced an ineffective Chris Relf as MSU trailed 3-0 at the half with UAB having a 181-118 yd edge. After punting to open the 3Q, MSU went 89/7pl for a TD then after a UAB fmbal went 71/4pl (after UAB fmbal) for a TD and after a UAB int, went 72/11pl for a TD with 5:03 left to go up 21-3. UAB's final drive was SOD at their own 47 with 3:18 left. Russell hit 11-13-166 while Relf hit 6-10-46. UAB QB Perry missed at least 5 open rec's and in the 1H there were 10 punts and 3 FG att's with 2 missed for the 2 teams combined. Miss St had just a 416-340 yd edge...Georgia Tech failed to put Maryland away and the Terps turned to backup QB CJ Brown. Brown hit just 4-17-36 yards but had the game changing play of the day. A few inches may have determined this game as well as GT had 4 different plays which could have gone for TD's but the connection was missed by inches and/or a drop with wide open rec's. In the 1H GT had a commanding 232-89 yd edge but only led 14-3 as they had a TD pass dropped and punted, missed a 34 yd FG and then were int'd in the EZ for a TB from the 18 yd line. GT led 21-3 and was SOD at the MD23 with 12:14 left when the key play happened. Brown faked a pitch and raced 77 yards down the sideline for a TD to get MD back to 21-10 and got 1 more late TD to only lose 21-16...South Carolina's only weakness at the start of the year has been QB Garcia who had a 4-9 ratio. Conner Shaw did start his second game and after a not so good outing vs East Carolina in his first start, Shaw guided SC to 639 yards and a 32-6 FD edge vs Kentucky. He hit 26-39 and most importantly had 0 int's. Kentucky had lost their first 2 SEC games by 33 ppg and SC Marcus Lattimore only ran the ball twice in the 1Q but finished with 102 yards (22 att). When they pulled Shaw, 3rd stringer Andrew Clifford and 4th stringer Dylan Thompson both appeared but no Garcia. UK ran just 6 plays in SC territory all on their opening drive and Shaw's 4 TD passes matched Garcia's effort for the entire start of the season. UK actually led 3-0 after SC fumbled the opening KO and it was just 7-3 after 1Q but SC had a 290-57 yd edge at the half and led 20-3 in the 54-3 romp...Rice only had a 350-307 yd edge vs Memphis. Rice was int'd on 2 of their first 4 poss and only led 7-3 after 1Q then were SOD at the UM21 and punted on their next 2. After a 21 yd PR, they went 46/11pl for a 15 yd TD pass with :38 left in the half to lead 14-3 and had a 245-107 yd edge at the half. Rice got a 47 yd IR TD early 3Q and then drove 74/7pl for a TD to lead 28-3. Memphis rec'd a fumble at the Rice20 and got a 30 yd FG and 2 poss later fumbled at the Rice24 with 4:52 left and on their final poss, got to the Rice31 but were int'd at the 11 with :29 left...Wake Forest led almost start to finish vs Florida St. FSU started Clint Trickett but when Trickett was int'd and ret'd to the 38 setting up a 38/4pl drive for a TD and a WF 16-7 lead with 1:48 left in the half, EJ Manuel came off the bench. Manuel led an 88/6pl drive for a TD to make it 16-14. WF built the lead to 32-17 early 4Q and FSU down 35-24 got a TD with :54 left to pull within 5 (2ptng) but WF rec'd the outside kick. Josh Harris rushed for 136 yards...QB Jon Hays made his first start for Utah and had 3 crucial int's vs Arizona St. The Sun Devils led 10-7 at the half. Utah faked a punt and would go 79/9pl for a TD to lead 14-10. ASU got a 35 yd FG with 5:00 left 3Q, 14-13. Utah then turned it over 3 times and ASU went 44/5pl, 32/3pl and 61/10pl for TD's to blow it open, 35-14. Utah was sacked on 4&16 at midfield and punted on their final 2 poss...West Virginia/Connecticut was a tale of 2H's. In the 1H Conn had an 11-10 FD edge but missed a 42 yd FG and settled for a 22 yd FG on the last play of the half and actually trailed 10-9. The key play of the game happened mid3Q. Conn, threatening to take the lead, had a FD at the WV13 when QB McEntee was hit and fmbld. The ball popped into the air and was ret'd 83 yards to the UC12. WV got a TD 2pl later to go up 17-9. Conn would then get 3 & out on their next 2 poss, get tackled for a safety and got 2 FD's on their next 4 poss, all punts while WV rolled to a 43-9 lead. UC did get a 48 yd IR TD with 7:54 left to close the scoring and WV won 43-16 with a 541-275 yd edge...Oklahoma got a 55 yard IR TD, 19 yd FR TD and 56 yd FR TD in their 55-17 win over Texas. The FD's were even at 22 but the Sooners did have a 453-259 yd edge. Landry Jones hit 31-50-367 yards...Texas has come in the Red River Rivalry game ranked #11 three times and allowed 65 in 2003, 63 in 2000 and 55 in 2011... Kansas St led 10-3 at the half and opened it to 24-3 with 11:23 left in the game. Missouri would go on 12 and 8pl drives for 2 TD's to pull within 24-17 with 5:02 left and had some momentum. They opted to kick off deep but KSU went 66/11pl picking up 3 crucial FD's and ended the game at the Missouri 11 yard line pulling the outright upset...All season long Penn St has been better statistically than they were on the scoreboard. Versus Iowa, PSU had a 395-253 yd edge. In fact, Iowa came in leading the Big Ten in passing but PSU held them to 169 yards. PSU settled for a 20 yd FG after an 88/18pl drive then another 20 yard FG after an 81/12pl drive and only led 6-3 at the half. PSU had a 3&5 from the 6 but was int'd in the EZ but got a TD with 8:08 left to lead 13-3 and Iowa's final 3 poss ended on 2 int's and a 4th&39 sack...Oregon St jumped out to a 27-6 halftime lead vs Arizona and held on for their first win of the season. The Beavers did get a blocked punt for a TD in the 1H helping them to that lead but had a 224-141 yd edge. They extended it to 30-6 mid3Q but Arizona chipped away. The Beavers went on a 48/9pl drive and missed a 42 yd FG and Arizona got within 30-27. OSU went for it on 4&gl at the 2 and got a TD with 5:22 left to lead 37-27 and Arizona went 78/7pl but on 4&gl from the 2 were SOD was 3:02 left and the Beavers won by 10...If you compare LSU and Alabama's games vs Florida, they are fairly even statistically and the scores are almost identical. Alabama's win is still far more impressive. Alabama last week had to play in The Swamp vs Florida's #1 QB for the 1H and #2 for the 2H. LSU was in Death Valley and was facing a 3rd string QB in Jacoby Brissett who became the first UF frosh QB in Florida history to take his first snap as a starter. Brissett, who was in a hostile environment, hit 8-14-94. It was just 27-11 after 3Q's and LSU would punch in a 2 yd TD run with 1:27 left capping a 76/11pl drive for the 41-11 final. LSU had a 453-213 yd edge...Houston's defense looked porous on Thursday night vs UTEP but vs East Carolina they had 9 sacks and had 4 int's. Case Keenum became the #2 all-time career leading passer passing Graham Harrell at TT and he hit 30-37 for 304 yards with his last pass being a 27 yard TD with 14:34 left in the game to make it 49-3. EC did have 20 FD's but was int'd at the UH21, EC43, UH33 and UH33. They also went on a 15 play drive to the UH19 but punted after sacks, were SOD after a 10pl drive at midfield and had a drive to the UH34 also end on a punt. UH went 80/10pl and got a TD with 1:19 left for the 56-3 final...You had to expect a high scoring game with Southern Miss and Navy and the two teams combined for 1,153 yards. Navy actually had 144-0 yard edge at the start but trailed 7-0 as they went on a 68/13pl drive settling for a 29 yd FG which was blk'd and ret'd 79 yards for a TD then went 76/13pl but was SOD on 4&gl at the 1. SM's offense was almost unstoppable and had TD drives of 99, 75, 77 and 58 yards in the 1H and led 35-7 with a 327-213 yard edge. The teams basically traded TD's in the 2H on almost every poss with SM leading by 28 or 21 points and Navy, trailing 63-35, was SOD at the SM2 with 1:59 left...Some key plays kept Miami, FI in the game vs Virginia Tech and VT blew a big lead and actually needed a TD with :56 left for the win. VT took their first 2 drives right down the field for TD's to lead 14-0 and their 3rd drive was headed for the same but they fumbled at the Miami27. UM on 3&18 threw a pass down the sideline which looked incomplete. Somehow the replays gave them a 41 yard pass for a FD overthrowing the call and they got a TD a few plays later. VT still led 21-7 at the half. In the 2H, UM got their 2nd big play, a 3&4 pass where DB Whitley went for the ball and missed and Benjamin took it 77 yards for a TD. VT still led 24-14 and 31-21. UM on 3&12 early 4Q was sk'd and was forced to punt but QB Harris was standing over the DE and Collins threw the ball back at him and got a 15 yd penalty keeping the drive alive and UM got a TD. UM faced a 2nd & 30 and handed off to Miller who took it 30 yards for a TD and stunningly they led 35-31 with 2:51 left but VT went 77/8pl and Logan Thomas had a 19 yd TD run with :56 left for the win. Thomas hit 23-25-310 yards and 3 TD's passing and 2 rushing...Central Michigan QB Ryan Radcliff had a great 1H hitting 15-17 for 196 yards. CM settled for a 22 yd FG after an 82 yd drive and trailed 21-17 at the half despite a 253-223 yd edge. Radcliff was 1-10 with 3 int's in the 3Q and NCS1 took control 35-17. It was 38-17 when CM got a 77 yd TD run by Cotton with 8:18 left then recovered the outside kick. They got 3 FD's in the NCS11 but was int'd in the EZ with 5:38 left and NCS1 got 3 FD's and ran out the clock...Notre Dame scored their most points since Lou Holtz's final home game when they beat Rutgers 62-0. It was the most combined points ever for a game at ND Stadium. ND scored on all six 1H poss and led 42-16 at the half as the Falcons were no match physically for the Irish. ND even inserted mobile Andrew Hendrix who hit all 4 of his passes and rushed 6 times for 111 yards. The 2 teams combined for 1,125 yards. Air Force26 had a FD called back on a clip and went 3 & out after dropping a FD pass on 3&7. The Irish led 59-19 when AF went 74 and 67 yards for a pair of garbage TD's on their final 2 drives, the latter with :33 left...Tennessee was held to -9 yds rushing vs Florida but Georgia did even better holding them to -20 yards rushing. In the 1H, each team had some long drives result in FG's and it was 6-6. UGA took control at the start of the 3Q scoring TD's on their first 2 poss to lead 20-6. UGA had an amazing poss where they went 12pl and had a FD at the UT23. After 3 holds and a 15 yd PF, they punted on 4&50! UT took over with 6:11 left and QB Bray was injured. Backup QB Simms converted on 4&2 and on 4&16 for FD's and got a TD with 2:45 left to pull within 8. UGA rec'd the outside kick. *cont. on pg*

cont. from Front Page ... Nebraska had the biggest comeback in Cornhusker history with Ohio St not scoring after Braxton Miller left the game with injury. Taylor Martinez was coming off a horrible game vs Wisconsin where his 3 int's turned the game around but hit 16-22-191 yards. Still, OSU led 27-6 in the 2H with NU only taking the lead after a Bauserman int with 6:29 left and getting a 17 yd TD run by Burkhead with 5:10 left. NU finished with a 25-16 FD edge. After Miller went out of the game NU had a 15-3 FD edge and managed the comeback with Bauserman hitting 1-10-13...It was a tale of 2H's in the Northwestern/Michigan game. In the 1H NU had a 297-257 yd edge and led 24-14, even dropping a TD pass at the end of the 1H and settling for a 20 yd FG. Denard Robinson had 3 crucial 1H int's being picked off at the 4 yard line 3 times. In the 2H UM battled back to take its first lead with 2:58 left in the 3Q and then NU turned it over on consecutive drives. NU, trailing 35-24, went for it on 4&5 at the UM37 and QB Persa had his helmet ripped off by a DL but no pen was called and the play was blown dead because his helmet was off. Fitzgerald got hit with a 15 yard PF for protesting the call and UM went 39/9pl for a TD with 2:19 left to clinch it, 42-24.

MISLEADING FINALS - UCF absolutely dominated Marshall and it's shocking that they only won by 10. In the 1H UCF had 13-1 FD and 246-47 yd edges. They had a pair of long TD drives but also had a 63/6pl drive end on a fumble at the MU11 and had a 10pl drive end on a 22 yard FG where they mishandled the snap. Marshall's only TD came when UCF fumbled and MU ret'd it 12 yards for a TD with 3:07 left in the 3Q. UCF had 2 chances at a TD at the end but on 3&2 from the MU11 were int'd at the 4 with 5:04 left and UCF's final drive went 48/7pl with the last play of the game getting to the MU4. UCF finished with 21-6 FD and 387-130 yard edges.

INJURIES OF NOTE: Clem was cruising along vs BC with a 26-7 lead when Taj Boyd inj'd his hip on the first drive of the 3Q and he did not return. Cole Stoudt hit 6-10-37 yds in his place. CU still managed a 47 yard FG with :39 left in the 3Q to lead 29-14 and then drove 58/6pl and on 4&1 got a 36 yd TD run by Ellington with 11:24 left to get ahead of the 21 pts spread, 36-14. BC was SOD at the CU31 and SOD at their own 33 on their L/2 drives. CU had actually not scored a TD vs BC S/08. Another injury of note was RB Montel Harris for BC did not play after having rushed for 100 yards the week before in his only game of the season so far. CU finished with a 500-258 yd edge.

FRONTDOOR AND BACKDOOR COVERS - Louisville OC Mike Sanford did not travel with the team so QB coach Watson called the plays. NC got their 8th straight win over a non-conf opponent and Giovanni Bernard became the first Tar Heel to rush for at least 100 yards in 4 straight games since Ethan Horton in 1984. UL actually controlled the 1H with a 188-59 yd edge but the Cardinals missed a 40 yd FG after a 75/15pl drive, were SOD at the NC43, int'd at the NC19 and missed a 36 yd FG. In the 2H, UL punted on their first 5 poss. NC took the points off the board on a 23 yd FG when UL jumped offsidess and got a TD and later went 66/5pl for a TD to lead 14-0 with 12:19 left. NC was SOD on 4&1 at the UL39 with 2:35 left and UL went 61/10pl and got an 18 yd TD pass with :41 left for the backdoor cover. NC rec'd the onside kick... Illinois is off their best start since 1951 and had 3 scoring plays of 66+ yards to erase an early 10-0 deficit. Indy ret'd the opening KO 98 yards for a TD and Illinois trailed 10-0 when they got a 77 yard TD pass on 3&11 with 4:22 left in the 1Q then got a 66 yd FR TD and later a 67 yd TD pass to Jenkins to lead 27-13 at the half with a 280-119 yd edge. It was 34-13 when Indy got a TD with 5:29 left capping an 85/11pl drive for the frontdoor push but IL took over at its 11 and went 89/11pl and got a 1 yd TD run with 1:20 left for the frontdoor cover. Indy got to the IL15 but their final pass was incomplete... Texas A&M did what they usually do which is jump out to a big lead, this time it was 31-20 at the half and A&M had a 301-225 yd edge. This time A&M got a break in the 3Q. They led 31-23 when they blk'd a 50 yd FG and ret'd it 63 yards for a TD to make it 38-23. A&M got a TD with 11:59 left and were up comfortably 45-30. TT got a 31 yd FG that bounced off the upright and went through to make it 45-33 with 9:34 left but TT on 4&2 fired incomplete with 4:00 left at their own 33. A hold on A&M forced a 4&17 and they punted with just 2:55 left and TT would go 91/11pl getting a 20 yd TD pass with :31 left for the backdoor cover.

THE MOST UNIQUE POWER RATINGS IN THE COUNTRY

These Power Play Forecasts are the most unique in the country because they are based on **Northcoast Sports' Private Power Ratings**. Our ratings are unlike any computer rating, as we take into account all of the following: Strength of Opponents Individual Units (Rushing Offense and Defense, Passing Offense, & Defense, Scoring Offense and Defense, Garbage Yards, Weather, Injuries, Home Field Edge, and Successful Unbalanced Attacks). Here is how each is reflected:

Strength of Opponent: Our ratings do not just take the opposing team's overall power rating into account. For example, in 1992, Washington's defense vs the rush was rated at a "110" (From 1-100). They faced Colorado and allowed 183 yds rushing and **dropped 12 spots** in the national rushing defense ratings. However, Power Plays took into account the potent Buffalo run attack and had forecasted the Huskies yielding 225 yds. Due to the fact they did better than the forecast, Power Plays raised their rating to 112 even though they slipped in the national (straight yardage) rankings. Another example was Michigan vs Purdue in 1989. Michigan held Purdue to just 45 yards rushing and improved their ratings in rushing defense in the national statistics. However, our ratings had them rated at a 102 and moved them down to 99, as they should have yielded just 32 yards to an impotent Purdue rush attack. Next time an announcer on TV tells you that a certain team is #3 in the country vs the run you better check **Northcoast Sports' Power Ratings and see how good a rush defense they really have!** The top twenty ratings in Power Ratings for each offensive and defensive category will be listed in each week's issue of Power Plays.

Garbage yds: These are yds that a tm gains or all's in the final minutes of a game when it has been decided. For example, Team A is ahead 63-0 and allows 93 yards passing for a TD vs its 4th string D. These yards are **counted** into nat'l ratings, **but not in Our Sports' Power Ratings!**

Weather: If a game is played in miserable weather conditions and is low scoring, the straight statistics credit the defense with outstanding performances. Our Power Ratings reflect the conditions and do not give excess credit to the defenses.

Injuries: When South Carolina played NC State in 1989, South Carolina QB Todd Ellis was injured on the third play of the game. His backup, who had seen very little action all yr, was not prepared and hit on just 4 of 13 passes for 65 yds. The offensive coordinator did not risk any passes. In the national statistics NC State's pass D MOVED UP 14 NOTCHES. In Phil's Power Ratings they **stayed the same**, as the low yardage WAS NOT reflective of an outstanding performance by the D.

Home Field Edges: The weekly projection of yards and points is weighted with the home field factored in.

Successful Unbalanced Attacks: In 1989, Ohio St was held to 127 yards passing vs Northwestern. This dropped OSU in the national passing offense ratings & RAISED the Wildcats in the pass defense ratings. In our ratings the two units **remained** rated the same. Why? OSU rushed for 456 yards & DID NOT HAVE TO PASS & when they did they hit 9 of 11 passes, which is VERY effective. While Northwestern's pass defense looked good in the national ratings, only Northcoast Sports' Power Ratings reflected the TRUTH!

There you have it. More than just numbers, THESE RATINGS REFLECT the true strength of each unit and allow them to have the **most accurate forecast of yards gained and points allowed in the country!** No other rating system takes into account all the previous factors. Next time you hear that a team is rated third in the country in pass defense, just remember, yards are not everything and Northcoast Sports' Power Plays will show you how strong the team really is.

NORTHCOAST SPORTS PLUS OR MINUS POWER RATINGS

The Power Ratings listed below are not based on the Power Plays, they are based on last year's final computer power rating numbers with the pluses and minuses from the off season changes factored in. They are then adjusted during the course of the season based on the final score of the games that are played on a weekly basis. The Power Ratings listed below can be used for you as a base power ratings to forecast up coming lines and strength of opponents, etc. Once again, they are not based on Power Plays and they differ from what we have shown in recent years, which has been our actual computer Power Ratings. These are Northcoast Sports Plus or Minus Power Ratings.

2011 COLLEGE POWER PLAYS RANKINGS

Listed below are Northcoast Sports' Power Play Rankings. These Power Play Rankings are unique. Our rankings are unlike any computer ranking, as we take into account all the following: Strength of Opponents, Individual Units (Rushing Offense, Rushing Defense, Passing Offense, and Passing Defense) Garbage Yards, Weather, Injuries, Home Field Edges, and successful Unbalanced Attacks. Regular rankings based solely on numbers DO NOT take into account these factors.

Welcome to this week's issue of Power Plays. The Power Plays Newsletter consists of forecasts that are made by a special Power Plays rating system. This is a system developed many years ago and we regard it very highly. In our final analysis of the plays the Power Plays forecast takes up anywhere from 25 to 30% of our total analysis. You will see in the Power Plays Newsletter in the write-ups that we agree with the majority of the Power Plays forecasts. However, there are times when we will disagree with the Power Plays forecast. We want to make it clear that this is the Power Plays Newsletter and these forecasts are based purely on the power ratings. You should never use just one method, system or angle to determine your handicapping. The times that we disagree with the Power Plays Newsletter we will clearly note it. If the Power Plays rating is strong enough to be a 4★ Play, yet we are on the other side of the game, we will clearly state that we like the other side of the game.

PRO FOOTBALL OCTOBER 16-17, 2011

Just a quick note for our Power Plays Subscribers. Obviously this newsletter is based upon statistical numbers and rankings that are used to develop the projections you see here. As with all types statistical information the more numbers that one inputs ordinarily the stronger the accuracy of the results. Therefore, one would expect the projections to be more reliable after a number of weeks worth of stats are input. The numbers here are based upon how they finished last season with adjustments made due to personnel changes. Preseason statistics are not included in any of the projections as we do not feel they would accurately adjust the numbers.

SUNDAY, OCTOBER 16th

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
ST LOUIS	80	200	12	2.2	#24
GREEN BAY	139	358	37	2.9	#27

GB is the NFL's lone unbeaten team but they may not have either starting OT (Clifton/Bulaga) here. They entrenched schematically & the benefits of it are clearly shown in the fact they've won 3 straight by 10 or more pts. STL isn't equipped right now to run McDaniels offense with their WR/TE's & PP agrees with GB having the biggest yardage edge this week (+217). This is a flat spot for GB after going to ATL on SNF with a road game vs MIN on deck. STL has extra time & rest to gameplan (0-4 or worse AD's off a bye are on a 13-4 ATS run) which combined with such a large line has this as a No Play.

PITTSBURGH	119	255	26	1.8	#17

Despite a slew of injuries Tomlin put PIT in a very valuable pair of padded practices LW & it paid off with a 38-17 win vs a quality foe. JAX has dropped its L4 SU/ATS and scored 20 pts for the 1st time in 8 games. Gabbert is playing like a typical rookie QB (6.3 ypa 50% 3-2) & now faces a PIT team starving for takeaways. PP doesn't think JAX will have 200 yds & will be outgained by almost 200 yds. We agree but the large line (PIT 3-6 ATS DD fav) has us temper the grade.

WASHINGTON	126	225	21	2.7	#9

The Eagles - 10 TO's is a franchise worst thru 5 games since 1977 & tied with PIT for last in the NFL. This is ruining a fairly solid effort by the #3 & #15 units so far this year. WAS is quietly playing solid ball with the #15 & #6 units & don't have the distractions of 2010. PP calls for a very even game with only 22 yds difference here & the public is going to determine the line here (Even at press time) so this is a No Play.

The Falcons invested a lot into the SNF & were successful for the 1st 1.5 Qtrs relying on a power rush attack to control the clock. After their 1st 2 drives though they had 111 yds though. CAR is "losing close" due to poor special teams & run defense. However, Newton has raised the Panthers level of play to keep it in the numbers for 4 straight. ATL is an NFL best 14-3 ATS under Mike Smith off a SU loss but PP gives CAR a slight yard edge, has this right around the line making it a No Play.

INDIANAPOLIS	70	200	19	1.0	#30
CINCINNATI	138	240	26	1.3	#16

IND had a 17 pt lead slip thru its fingers at home vs KC as their lack of depth has been compounded by injuries. They are now 0-5 for the 1st time since 1997 & have been outgained by 112 ypg TY. The 2011 Bengals are the anti-attention team of years past & their focus has helped them win the L2 games on their final drives. Their #22 offense is keeping the #1 defense out of bad spots & the team is just fundamentally sound right now. PP gives CIN a 13 pt margin & 108 yd edge here. CIN is 2-10-1 ATS as a HF, with a rookie QB & Benson's status is unclear which combined with this being at the line means a No Play.

BUFFALO	121	215	27	2.0	#11
NY GIANTS	126	305	30	3.2	#31

Turnovers=Turnaround as the Bills have gone from #32 LY (-17) to #1 TY (+11) giving their #10 offense that many more drives to score. The Giants were in a great situation LW vs SEA but 5 TO's cost them dearly. They were in a position to win at the end but a tipped ball was returned 94 yds for a TD to seal the game. PP gives the Giants a 96 yd edge here but has this right around the line for a No Play.

HOUSTON	80	168	18	2.2	#13
BALTIMORE	110	243	27	1.9	#19

The Texans come into this game without their best offensive player (WR Johnson) and their best defensive player (DE/OLB Williams) due to injuries. They have stood up to the Saints, the Steelers and were in position to beat an emotional Raiders team at the end LW. BAL has had some OL issues TY & have beaten 2 teams that were overrated coming into the season by 30. PP sides with the home team here but we disagree so this is a No Play.

NO PLAY: RAVENS 27 TEXANS 18

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
CLEVELAND	100	238	18	1.7	#10
OAKLAND	168	213	32	0.9	#8

Despite being stocked with talent for a power run team the Browns have aired it out 71 more times than they've rushed & have yet to score a TD in the 1st or 3rd Qtrs. That's on a coaching staff working with a slow receiving group. OAK is all about speed & penalties (50) are the big thing holding them back. This is likely to be their 3rd sellout of the year but they may be on an emotional low after beating HOU on the road LW. PP likes OAK by 2 TD's but we want to see how they practice this week 1st.

NO PLAY: RAIDERS 32 BROWNS 18

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
DALLAS	77	290	21	2.5	#15
NEW ENGLAND	110	375	38	1.5	#21

NE has scored 30 or more pts in 13 straight games. They've had to as the #32 defense is 25th on 3rd Dns, 29th on sacks per pass att & 25th in red zone defense. DAL is solid statistically (#6 & #4) but their penchant for mistakes & inconsistency has done them in. PP gives NE a 118 yd edge w/a 17 pt margin with the line right around a TD making it a play. This is also the largest forecasted amount of yards this week & with both teams being a combined 33-8 O/U right now we'll take a look there too.

NEW ORLEANS	133	345	33	1.8	#12
TAMPA BAY	113	223	19	1.9	#6

The Bucs were in a tough spot LW vs SF playing with legit revenge going cross country after a MNF home game. They will also be without budding star DT Gerald McCoy (high ankle) & RB Blount's (left knee) status is unknown. TB is just 1-10 ATS vs foes w/a winning record. NO is in their 3rd straight road trip but they've come out of the L2 games with no injuries. NO is used to the heat/humidity here & have the edge at RB this year. This is a very manageable line making it a play with the road team having the 3rd largest yardage margin this week (+143).

MINNESOTA	125	178	20	2.0	#5
CHICAGO	89	225	23	1.6	#3

This is the 2nd primetime game for the Bears having faced DET on MNF. They were expecting to get healthier on defense with SS Harris returning which is huge for them. MIN got their 1st win of the year but McNabb only had 169 yds (48%). This may come down to if MIN's DL can take advantage of a beat up CHI OL. **Get this play on the Northcoast Debit Card System for only \$9 after 11:00 am ET on Sunday. Henne is the 1st QB to be replaced by injury TY & Matt Moore is a respectable 9-4 ATS as a starter. Sparano has nothing left to lose at this point & it wouldn't be a surprise to see them break the Wildcat back out. The Jets have lost 3 straight road games & need a big win as the league is starting to not impressed by their bluster. **We are offering a MONEY BACK PLUS Guarantee on MNM through the Northcoast Debit Card System - take advantage on Monday night after 3:00 pm ET!
