### NEWS AND NOTES - WEEK EIGHT, 2010

**NEWS AND NOTES:** UCF dominated Marshall just like the final indicates with 23-12 FD and 386-263 yd edges. They did only lead 14-7 at the half in a game that had a 1:08 delay. The teams did not go to the locker room at half, instead continuing play and UCF got a 70 yd KR to open the 3Q setting up an 18 yd TD drive then got a 42 yd IR TD on the 8th pl 3Q to lead 28-7...West Virginia only had a 15-13 FD edge vs USF. The key play of the game was deja vu all over again for BJ Daniels. Against Florida, USF was in complete control when they took over late in the 1H deep in their own terr and Daniels' int led to a UF TD which got the Gators back into the game. Against WV, they only trailed 10-3 and got the ball back at their own 14 with :51 left 1H. Daniels once again tried to throw downfield and was int'd this time returned to the 17 and WV got a TD on the next play which put them ahead by 14. It was probably the only way they were going to get ahead of the 10 point spread all game...Kansas St did only have a 3-0 edge vs Kansas in the 1Q and for the game both had 20 FD's but KSU had a 460-331 yd edge. KSU got a 25 yd TD drive after a fmb, a 58 yd TD drive after KU was SOD and a 51/9pl drive for a TD after a 16 yd PR and led 31-0 at the half. It was 38-0 when KU had a 2&6 at the KSU13 and they fmb'd and KSU ret'd it 85 yds for a TD. KU went 61/9pl but was int'd in the EZ. KSU fmb'd with 6:02 left leading 52-0 and KU went 44/10pl for a TD, 52-7...Michigan St was playing their 3rd big game in 3 weeks after having knocked off Top 10 Wisconsin and undefeated 5-0 Michigan but Illinois was also on their 2nd straight road game after pulling a road upset vs Penn St. MSU trailed 6-3 at half but an int set up a FG. MSU then went 77/4pl for a TD, 68/10pl for a 32 yd FG, 45/9pl for an 18 yd FG then after an int, 53/8pl for a TD to wrap it up, 26-6. MSU did have just 294 yds of offense...Missouri dominated Texas A&M much like the score indicates. While A&M had 9 TO's the previous 2 games, they did not have any and the offense was inept in the 1H with just 113 yards as Missouri had a 267-113 yd edge. Missouri led 16-0 at the half and extended it to 30-3 before A&M got a TD with 8:37 left. A&M gained 58 yds on 10pl before being SOD at the MO13 with 3:22 left. It was the first time since 1967 that MO held a conf foe scoreless for 6 straight quarters...Purdue led 14-0 at the half and a key play happened in the 3Q. Minnesota got an int and was headed for the EZ for a TD but QB Henry knocked the ball out of LB Tinsley's hand, it hit the pylon and was ruled a TB. PU went 80/13pl for a TD and a 21-0 lead in their 28-17 win. PU did have a 393-279 yd edge and rumors circulated before the game that UM Coach Brewster would be fired if they lost (he was)...Pitt came in with 3 non-conf losses but was undefeated in the Big East and started their quest for a BE Title in a big way. They led SU 28-7 at the half with a 257-139 yd edge...Georgia dominated Vanderbilt just as the 43-0 score indicates. They just missed the largest MOV in series history which had been 45-0 in 1976. UGA missed a 31 yd FG with 10:54 left which would have given them that margin. The Bulldogs also had 2 TD's overturned by replay. UGA finished with 22-8 FD and 547-140 yd edges...Southern Miss finished with 25-10 FD and 515-269 yd edges vs Memphis. In the 1H they had 41 and 19 yd TD drives after fumbles to lead 24-6 at the half. UM got an 81 yd TD pass early 4Q but SM answered with a 59 yd TD run six plays later to make it 41-16 and coasted...East Carolina had its largest home crowd ever and jumped out to a 21-0 lead after 1Q vs NC State but NCSt battled back and took a 27-24 lead on a 37 yd FG with 3:03 left. EC tied it on a 24 yd FG with 1:04 left. In OT EC got a TD but missed the xp. NCSt on 3&12 from the EC17 was int'd in the EZ...Duke had 7 turnovers to Miami's 2 and both had 22 FD's. UM had 224 yds rushing and 224 yds passing and Jacory Harris who was doubtful for the game hit 17-34-224 for UM and they did lead 28-10 after 3Q's...UNLV had a 19-18 FD edge vs CSU but big plays and some desperation hurt them. CSU did finish with a 492-274 yd edge. Trailing 27-10 UNLV went for it on 4&1 at its own 29 with 1:40 left in the half and were SOD and CSU got a 29 yd TD pass on the next play. In the 3Q they went for it on 4&12 at the CSU36 then on 4&20 at the CSU33 and of course failed on both. CSU scored 10 pts in the final 10:42 to win 43-10...Boston College blew some opportunities vs Florida St and had some unfortunate spots of the ball on FSU's final drive. BC got 72 and 48 yd runs by Montel Harris who finished with 191 yards but each time settled for a short FG to only lead 6-0. Leading 7-6 FSU went 96/7pl getting a TD with 1:35 left 1H. BC had a 53 yd IR TD overturned for offsides and FSU went on an 11pl drive for a 26 yd FG to lead 17-9. BC battled back and settled for a 38 yd FG to lead, 19-17 with 13:21 left. FSU ran a reverse to Bert Reed which he took 42 yds for a TD with 11:22 left. BC got 2 FD's and punted and FSU took over at its 21 with 8:04 left. After 1 FD on 3&1 they got a favorable spot for a FD then on 4&1 with 2:15 left went for it and once again a favorable spot gave them a FD and they ran out the clock taking off the final 8:04 on the 13 play drive.....Ball St jumped out to a 28-7 lead over EM thanks in part to a 92 yd KR TD and a 20 yd TD drive following a fumble. It was 28-14 at the half and BSU had 190 yds at half. They would have just 53 yds in the 2H allowing EM to finish with 26-16 FD and 490-243 yd edges. EM scored TD's on the first 2 drives of the 2H and got a TD with 4:48 left to take their first lead. Ball St got a TD with :34 left to force OT. BSU got a 44 yd FG in OT and EM on 3&14 got a 15 yd run for a FD then on 3&8 faced with a probable tie and 2nd OT they got a 12 yd TD pass...Texas got a 24 yd PR to open vs Nebraska which set up a 27 yd FG. After rec'ing a fmb, UT drove 21 yds for a TD. The Horns led 17-3 at the half with a 175-107 yd edge. It was 20-3 when backup Lee led Nebraska 83/16pl for a 28 yd FG to make it 20-6. Lee led NU on a 12pl drive and they had a likely TD pass dropped at the 4 on 4&18. NU got a 95 yd PR TD on a pooch punt to make it 20-13 and UT rec'd the onside kick at the NU42, got 2 FD's and ran out the clock. UT came in unranked for the first time since 2000 and NU was #5 in the country but UT allowed QB Gilbert to run the ball and he had 72 yards rushing...VT was dominant vs Wake Forest as they finished with 35-9 FD and 605-346 yd edges. At the half VT had a 49-14 lead with a 434-208 yd edge. They took over with 10:04 left in the game leading 52-21 and went on an amazing 17pl drive going 59 yds to the WF14 where they took a knee 3x...Houston had a 28-19 FD edge vs Rice but was int'd on the 3rd play and ret'd 25 yds to the 5 and Rice got a TD on 4&1. After a 19 yd punt, Rice went 56 yds for a TD and their 3rd TD once again came on 4&gl from the 1. Rice led 27-14 at the half but UH scored TD's on their first two 3Q poss to lead 28-27. A false start forced a 4&12 and they punted from the 40 (12:38 4Q). UH then settled for a 37 yd FG with 8:55 left. Rice got a 13 yd TD pass on 3&8 with 4:24 left for the lead. UH was driving for the tie or lead when on 4&1 QB Piland fmb'd the snap with 1:37 left...SMU led Navy 14-0 when the Mids went on a 7:00 drive that resulted in a 39 yd FG try which they missed. SMU went on a 9pl drive and settled for a 43 yd FG but had a bad snap and didn't get the kick off. Those points could have been valuable. SMU, trailing 28-21 took its final drive to the Navy41 with :18 left. After an EZ pass was incomplete, they tried the lateral play but only got down to the Navy25. An interesting play happened when Navy had a 2&1 at the SMU4 and SMU basically allowed Teich to run into the EZ for the TD so they had 1:38 to respond...For the 2nd straight year Iowa was +4 in TO's vs Michigan. UM also lost Denard Robinson on the 2nd series of the 3Q but for the 2nd time this season Tate Forcier played well. UM jumped out to a 7-0 lead. At 7-7 Robinson was int'd and after Iowa scored they settled for a 38 yd FG and it was blk'd & ret'd 42 yds. Iowa got a TD on the ensuing drive to lead 21-7 at the half. UM fmb'd at the Iowa 14 and then was int'd which set up another UI TD. Forcier led UM back to 35-28 with 6:55 left but Iowa converted on 3&9 and 3&8 and got a 30 yd FG to lead by 10 and Forcier on 3&19 was int'd at his own 43...Tulane QB Ryan Griffin hit 36-53-412 yards. A couple of key plays turned the game into a blowout. Tulane fumbled at their own 27 with 5:07 left in the 1H and Tulsa got a FG to lead 24-7. Tulane got a TD to open the 3Q and on their 2nd drive went 73/12pl for a 25 yd FG to make it 31-17. Trailing 38-17, Tulane went 65/6pl but on 1st & gl at the 10 was int'd in the EZ. Two drives later Tulane was SOD on 4&7 at the Tulsa11 but they did trail 52-24 at the time as Tulsa piled up 538 yds offense...At the half N Illinois had a 13-3 FD edge vs Buffalo but just a 193-127 yd edge and NI tk'd BU's P at the 7 setting up a TD and got a 5 yd TD drive after an int to lead 21-7. BU got an 81 yd TD pass, 21-14. NI led 38-14 when backup QB Lynch ran 90 yds for a TD with 4:27 left and BU got 5 of their 10 FD's of the game on their final drive getting to the NI13...Utah has had a couple of games this year where they were not as statistically dominant as the final score. In their game vs Wyoming they were more dominant than the final score leading 23-0 at the half with 14-4 FD and 276-96 yd edge. Twice QB Wynn was int'd in the EZ for TB's and Wynn was also int'd at the WY26 with 11:17 left. WY's only TD drive came with backup QB Crum in and included a 3&22 conversion and later on 3&gl from the 10 a TD. Utah's final drive led them to the WY5 but on 4&2 they were SOD. Utah finished with 22-10 FD and 431-183 yd edges...Arizona lost QB Foles at the start of the 2Q (inj) vs WSU and Matt Scott hit 14-20-139 yds. Foles had come in the P10 leader in passing at 305 ypg and despite WSU's poor record it was the first time all season they were shutout in the 1H and they trailed 14-0. UA had a 251-56 yd edge at the half. WSU got a 3&10, 23 yd TD pass to get to 21-7. UA was SOD on 4&1 at the WSU40 and settled for a 40 yd FG early 4Q...Colorado lost their leading tackler Anthony Perkins who is out for the season and has also lost RB Brian Lockridge who is also OFY. WR Will Jefferson was moved to RB and had the key play of the game vs Baylor. Surprisingly after CU's first 2 TD's, Dan Hawkins opted to go for 2 each time and failed both. They led just 15-10 at the half after giving up a 50 yd FG on the final play of the half to Baylor. Leading 15-13 CU appeared poised to get back ahead by 2 scores. On FD from the BU24 Jefferson raced for the EZ but fmb'd at the 2 and it was rec'd for a TB. BU went 80/5pl for a TD and the lead. At the end, CU trailed 31-25 and they got to the BU19 but a pass into the EZ was broken up by Chance Casey.

**FIRST TIME IN A LONG TIME:** Oklahoma St got their first victory in Lubbock since 1944, a span of 66 years. Justin Blackmon had a career high 207 yards rec. OSU led 14-0 and TT did not get their first FD until their fourth drive. OSU finished with 30-20 FD and 581-401 yd edges...North Carolina won at Scott Stadium for the first time since 1981 and did so in convincing fashion. After having lost 14 consecutive games on the Cavs home field, they won 44-10. Virginia and NC each had 19 FD although UNC had a 479-335 yd edge. Five TO's were the key. Trailing 10-3 UVA was int'd and NC went 51/7pl for a TD. UVA went on a 17 play drive and was int'd and ret'd 70 yds setting up an NC FG and they trailed 27-10 at the half and UVA actually had a 14-7 FD edge. NC got a 22 yd IR TD early 3Q, 27-10. UVA was SOD on 4&2 at the NC3 and 4&1 at the NC36 and their final drive got to the 5 where they were int'd in the EZ with 2:28 left... It's been a nightmare year for Urban Meyer. They lost their 2nd consec HG for the first time since 2003. Mississippi St won their first game in The Swamp since 1965, ending a 16 game losing streak there. Ron Zook never even lost 3 consec games. MSU jumped out to a 10-0 lead and UF was SOD at their own 38 and missed a 38 yd FG in the 2Q. With Burton mostly operating as the Wildcat QB in the 2H UF went 80/12pl for a TD. MSU missed a 40 yd FG with 10:56 left but UF fmb'd at the MSU16 with 7:50 left when they could have taken the lead MSU ate up 5:50 getting 3 FD's and punting with 2:00 left. UF converted on 4&2 for a FD to the MSU30 with :33 left but missed a 43 yd FG.

**MISLEADING FINALS:** Maryland had an 18-13 FD edge in the game and a 350-213 yd edge. MD led 7-3 when CU got an 87 yd KR TD. MD went on a 59 yd drive but missed a 33 yd FG and CU led 17-7 at the half despite being outgained 212-126. CU got a 41 yd PR setting up a 21 yd "drive" for a TD. MD was SOD at the CU30 and later int'd at the CU21. CU got a 63 yd IR TD with 5:31 left to make it 31-7. MD was int'd at its own 45 on their last drive with 4:20 left.

# THE MOST UNIQUE POWER RATINGS IN THE COUNTRY

These Power Play Forecasts are the most unique in the country because they are based on **Northcoast Sports' Private Power Ratings**. Our ratings are unlike any computer rating, as we take into account all of the following: Strength of Opponents Individual Units (Rushing Offense and Defense, Passing Offense, & Defense, Scoring Offense and Defense, Garbage Yards, Weather, Injuries, Home Field Edge, and Successful Unbalanced Attacks). Here is how each is reflected:

**Strength of Opponent:** Our ratings do not just take the opposing team's overall power rating into account. For example, in 1992, Washington's defense vs the rush was rated at a "110" (From 1-100). They faced Colorado and allowed 183 yds rushing and **dropped 12 spots** in the national rushing defense ratings. However, Power Plays took into account the potent Buffalo run attack and had forecasted the Huskies yielding 225 yds. Due to the fact they did better than the forecast, Power Plays raised their rating to 112 even though they slipped in the national (straight yardage) rankings.

Another example was Michigan vs Purdue in 1989. Michigan held Purdue to just 45 yards rushing and improved their ratings in rushing defense in the national statistics. However, our ratings had them rated at a 102 and moved them down to 99, as they should have yielded just 32 yards to an impotent Purdue rush attack. Next time an announcer on TV tells you that a certain team is #3 in the country vs the run **you better check Northcoast Sports' Power Ratings and see how good a rush defense they really have!** The top twenty ratings in Power Ratings for each offensive and defensive category will be listed in each week's issue of Power Plays.

**Garbage yards:** These are yards that a team gains or allows in the final minutes of a game when it has been decided. For example, Team A is ahead 63-0 and allows 93 yards passing for a TD vs its fourth string defense. These yards are **counted** into national ratings, **but not in Northcoast Sports' Power Ratings!**

**Weather:** If a game is played in miserable weather conditions and is low scoring, the straight statistics credit the defense with outstanding performances. Our Power Ratings reflect the conditions and do not give excess credit to the defenses.

**Injuries:** When South Carolina played NC State in 1989, South Carolina QB Todd Ellis was injured on the third play of the game. His backup, who had seen very little action all year, was not prepared and hit on just 4 of 13 passes for 65 yards. The offensive coordinator did not risk any passes. In the national statistics NC State's pass defense **MOVED UP 14 NOTCHES**. In our Power Ratings they **stayed the same**, as the low yardage WAS NOT reflective of an outstanding performance by the defense.

**Home Field Edges:** The weekly projection of yards and points is weighted with the home field factored in.

**Successful Unbalanced Attacks:** In 1989, Ohio St was held to 127 yards passing vs Northwestern. This dropped OSU in the national passing offense ratings & **RAISED** the Wildcats in the pass defense ratings. In our ratings the two units **remained** rated the same. Why? OSU rushed for 456 yards & **DID NOT HAVE TO PASS** & when they did they hit 9 of 11 passes, which is **VERY** effective. While Northwestern's pass defense looked good in the national ratings, only Northcoast Sports' Power Ratings reflected the TRUTH!

There you have it. More than just numbers, **THESE RATINGS REFLECT** the true strength of each unit and allow them to have **the most accurate forecast of yards gained and points allowed in the country!** **No other rating system takes into account all the previous factors.** Next time you hear that a team is rated third in the country in pass defense, just remember, yards are not everything and Northcoast Sports' Power Plays will show you how strong the team really is.

## NORTHCOAST SPORTS PLUS OR MINUS POWER RATINGS

The Power Ratings listed below are not based on the Power Plays, they are based on last year's final computer power rating numbers with the pluses and minuses from the off season changes factored in. They are then adjusted during the course of the season based on the final score of the games that are played on a weekly basis. The Power Ratings listed below can be used for you as a base power ratings to forecast up coming lines and strength of opponents, etc. Once again, they are not based on Power Plays and **they differ from what we have shown in recent years**, which has been our actual computer Power Ratings. These are Northcoast Sports Plus or Minus Power Ratings.

# 2010 COLLEGE POWER PLAYS RANKINGS

Listed below are Northcoast Sports' Power Play Rankings. These Power Play Rankings are unique. Our rankings are unlike any computer ranking, as we take into account all the following: Strength of Opponents, Individual Units (Rushing Offense, Rushing Defense, Passing Offense, and Passing Defense) Garbage Yards, Weather, Injuries, Home Field Edges, and successful Unbalanced Attacks. Regular rankings based solely on numbers DO NOT take into account these factors.

Welcome to this week's issue of Power Plays. The Power Plays Newsletter consists of forecasts that are made by a special Power Plays rating system. This is a system developed many years ago and we regard it very highly. In our final analysis of the Power Plays forecast takes up anywhere from 25 to 30% of our total analysis. You will see in the Power Plays Newsletter in the write-ups that we agree with the majority of the Power Plays forecasts. However, there are times when we will disagree with the Power Plays forecast. We want to make it clear that this is the Power Plays Newsletter and these forecasts are based purely on the power ratings. You should never use just one method, system or angle to determine your handicapping. The times that we disagree with the Power Plays Newsletter we will clearly note it. If the Power Plays rating is strong enough to be a 4+ Play, yet we are on the other side of the game, we will clearly state that we like the other side of the game. With all that said here are this week's Power Plays Selections.

# PRO FOOTBALL OCTOBER 24th & 25th, 2010

Power Plays is based upon statistical numbers & rankings that are used to develop the projections you see here. As with all types statistical information the more numbers that one inputs ordinarily the stronger the accuracy of the results. Therefore, one would expect the projections to be more reliable after a number of weeks worth of stats are input. The numbers in parenthesis are a comparison of the teams rankings (Visitor, visitors offense ranking vs home defense ranking, Home home offensive ranking vs visitor defensive ranking) over each teams last 4 games.

## SUNDAY, OCTOBER 24th

<b>PITTSBURGH</b>	80	185	23	1.4	#8
<b>MIAMI</b>	100	275	20	2.7	#31

(PIT #28 vs MIA #18, MIA #11 vs PIT #7) - Roethlisberger did well in his 2010 debut but the coaching staff kept it conservative with a 35 run/27 pass mix vs a tough but slow CLE defense. MIA was taken to OT vs a badly depleted GB squad & needed 3 40+ yd FG's for the win. PIT's defense is back to its bullying style while MIA is still trying to get LB's Dansby/Crowder on the field for a full game. PP has this around the line & hasn't fully adjusted yet for Roethlisberger so No Play.

<b>CINCINNATI</b>	73	245	15	2.1	#25
<b>ATLANTA</b>	117	248	25	1.7	#13

(CIN #19 vs ATL #19, ATL #14 vs CIN #9) - CIN's lack of identity & inconsistent play by Palmer has been the big reason for CIN's 2-3 start. The Bengals pass rush has struggled TY as well (1 every 29 vs 1 every 16 LY) & would be smart to trade for WAS DE/OLB Andre Carter. ATL was caught reading its own press clippings LW & were never in the PHI game. They gave up 3 TD plays of 30+ yds & the defense failed to take advantage of a beat up PHI OL without LT Peters. PP calls for a pretty even game in yardage (+47 ATL) but a 10 pt win for the home team & we agree.

<b>KANSAS CITY</b>	173	240	29	1.4	#2

(JAX #21 vs KC #14, KC #10 vs JAX #28) - JAX is off a huge MNF game vs TEN they were hoping to use as a stepping stone for ticket sales. The Jags are 6-18 ATS vs a non-div foe but KC is 0-6-1 ATS as a HF. KC is much improved thanks to the coaching staff who have greatly improved the OL play (1 sack every 34 att's vs 12 allowed LY), cut down on penalties (23 - 2nd best) & streamlined the defense to play to the defenders speed & instincts. We aren't sold on Cassel (1 250 yd passing game TY) yet but PP has KC at +95 yds here. The lack of a firm line due to MNF keeps this from being a stronger play.

<b>TENNESSEE</b>	145	205	26	2.1	#17

(PHI #6 vs TEN #20, TEN #27 vs PHI #3) - PHI rose up to the challenge LW vs ATL with Kolb being very aggressive in the passing game (79% 11.2 ypa). However they are likely to be without WR Jackson (81 rec 19.1 L21 gms) who is their best big play threat due to a serious concussion. TEN is off LW's MNF game & while RB Johnson isn't on a pace to hit 2000 yds again Young is starting to develop faster. We need to get a look at PHI's injury report (LT Peters, DT Bunkley) & a solid line 1st & this is a No Play.

<b>CHICAGO</b>	120	208	19	2.4	#6

(WAS #18 vs CHI #11, CHI #31 vs WAS #31) - While WAS runs a bend but don't break defense they are 14th in the red zone & ppg allowed. They allowed a surprising 170 yds (5.9) to the Colts LW & TE Cooley (concussion) may miss here. After finding a winning formula vs CAR with 218 yds (5.2), Martz regressed & exposed Cutler to another 6 sacks (1 every 6.1 att's TY). PP has this right around the line with essentially even yardage call so this is a No Play.

### NO PLAY: BEARS 19 REDSKINS 15

<b>CLEVELAND</b>	98	205	17	2.5	#12
<b>NEW ORLEANS</b>	132	283	26	1.5	#10

(CLE #25 vs NO #4, NO #2 vs CLE #24) - On one hand McCoy handled himself fairly well vs PIT staring down PIT's aggressive pass rush which looked to jump the snap count repeatedly & pushed the ball downfield. On the other hand a lot of good passing #'s come in losing efforts & he had 281 yds (70%) with a 1-2 ratio. NO flashed some 2009 form as the run game finally showed up (212 yds 6.6) which allowed Brees to push the ball downfield. CLE is a scrappy team & this is a big line. However, McCoy is travelling to the Superdome in his 2nd start potentially without Cribbs/Massaquoi this is a No Play.

<b>BALTIMORE</b>	105	228	29	1.3	#25

(BUF #29 vs BAL #12, BAL #9 vs BUF #32) - The Ravens are off a tough loss to NE where they went 13 min into OT going 3 & out twice in the extra period. The Bills are making a serious case for the 1st pick in the 2011 Draft & have a real chance of going 0-16 TY. BUF has been outgained in all 5 games TY, are allowing 49% on 3rd Dns & are giving up an 11-1 TD/Int ratio. PP calls for BAL to have a 333-208 yd edge & 20 pt win here but the hefty line keeps this from being a stronger play.

<b>CAROLINA</b>	127	173	13	2.8	#18

(SF #23 vs CAR #8, CAR #30 vs SF #16) - The good news is that SF got its 1st win of the year. The defense finally dominated a game (10 FD 179 yds for OAK) & Smith rebounded from a poor 1H. Now they travel to the EST where they are 2-23 SU. CAR comes back off the bye & despite a woeful offense that has left the defense on the field way too long they have the #8 def the L4W. Its unknown if they will get Steve Smith (ankle) back here with SF travelling to London next week we are split & this is a No Play.

<b>TAMPA BAY</b>	111	218	17	1.6	#19

(STL #17 vs TB #25, TB #22 vs STL #10) - The Rams have equalled their win total from 2008 & 2009 with 3 home wins. Aside from WR the Rams have avoided the injury bug TY as 10 of 11 defenders have started all 6 games TY. TB showed its big defensive weakness LW as the Saints gashed them for 212 yds (6.6) targeting their young DT's. PP calls for a very even game in yardage (TB +18) & has this right around the line for a No Play.

<b>SEATTLE</b>	127	250	28	2.7	#5

(ARZ #32 vs SEA #27, SEA #24 vs ARZ #30) - SEA returns home with some momentum after upsetting the Bears on the road. The most impressive part about the Seahawks TY is that despite all the roster moves TY they are aren't giving up sacks (8th) & are getting after the QB (5th). ARZ will start Max Hall in his 1st road start at Qwest Field which is accepted as the loudest venue in the NFL. The bye week will help ARZ's OL & WR Fitzgerald heal up but its unknown if #2 WR Breaston will be available. ARZ will try to establish Wells/Hightower here but PP calls for SEA to have a 327-263 yd edge at home & are the play.

<b>SAN DIEGO</b>	84	353	27	2.2	#32

(NE #16 vs SD #2, SD #1 vs NE #23) - NE has to travel cross country after going an extra 13 min into OT vs the Ravens for the win. Belichick learned a lot from NE's scrimmages with NO in the preseason. By trading away Moss he enabled Brady to spread the ball around with pass att's to 8 different players LW. SD once again had a special teams blunder (blocked FG) wich cost them. TE Gates (ankle sprain) is expected to miss & PP doesn't take that into account here (+115 yds). NE is 6-2 ATS as a dog & are the play.

<b>DENVER</b>	136	270	25	1.5	#22

(OAK #26 vs DEN #17, DEN #7 vs OAK #26) - Raiders QB Campbell was a disaster LW with 83 yds (38%) & 2 Int going 2 Qtrs without a completion at one point. 24% of their yards came on a WR end around play & the defense allowed SF to convert 5 of 9 3rd Dns in the 2H. DEN is off a tough loss vs the Jets which they were winning late in the 4Q. They gave up a 46 yd Def pass interference penalty on 4th & 6 which set up the Jets TD. DEN is very beat up right now defensively & 58 of their 145 rush yds were by non-RB's LW. PP leans with DEN here but they are a poor 5-19 ATS as a HF the L3Y & this is a No Play.

### NO PLAY: BRONCOS 25 RAIDERS 17

<b>GREEN BAY</b>	95	193	20	2.2	#28

(MIN #20 vs GB #22, GB #12 vs MIN #6) - Despite being outgained by DAL 314-188 the Vikings came away with a win thanks to a 95 yd KR by Harvin with the Cowboys repeatedly shooting themselves in the foot. GB lost its 2nd straight OT game LW as they were without 7 opening day starters vs MIA. Rodgers & Favre combined for a 12-1 TD/Int ratio in Ly's meetings. MIN swept GB LY thanks to 14 sacks but they haven't been able to get to QB's here. This is a No Play as we wait for the Packers injury report.

### NO PLAY: VIKINGS 21 PACKERS 20

## MONDAY, OCTOBER 25th

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
<b>NY GIANTS</b>	102	142	20	2.0	#26
<b>DALLAS</b>	91	224	21	1.8	#27

(NYG #4 vs DAL #5, DAL #3 vs NYG #1) - While the Cowboys have a loaded roster their problem is that they don't have a clear cut leader on either side of the ball. This has led to countless mental mistakes & since 1990 only 5% of 1-4 teams have made the playoffs. The Giants will be looking to put the nail in the coffin of the Cowboys season but desperate teams have well TY. This is a No Play as Romo injured his left thumb vs MIN & we need to see how/if he practices.
