NEWS AND NOTES - WEEK FOUR, 2010

NEWS AND NOTES: California's Mike Mohamed who led the Pac-10 in tackles last year was a late scratch from the Nevada game. In the 1H NV had a 182-126 yd edge and led 24-14. The key play of the game happened in the 2H after Cal had trimmed it to 24-21 and was driving for the go-ahead TD, Riley was int'd and re't'd 65 yds for a TD, a 14 pt swing...Ohio St dominated Ohio with a 289-52 yd edge in the 1H, 16-2 FD edge and led 34-0. They extended it to 43-0 before OU got a garbage TD with 6:14 left. Terrelle Pryor hit a school record 16 consec passes, topping Jim Karsatos' 1985 record (12 vs Wisc)...Daniel Thomas rushed for 181 yards. Kansas St led 10-7 when they faked a 36 yd FG and were stopped late 2Q. They opened the 3Q driving for an apparent 10 pt lead when they were int'd 69 yds for a TD and actually trailed 14-10. Iowa St led 20-17 when KSt got a TD with 6:47 left and ISt fumbled at their own 25 with 1:58 left and KSt got a 42 yd FG with 1:38 left for the 7 pt lead. ISt was SOD at the KSt36 with :13 left...West Virginia dominated the 1H vs Maryland with a 250-62 yd edge and led 21-0. It could have been worse as WV fumbled at the MD15, was SOD at the MD34 and fmb'd at the MD38. Two plays kept MD in the game as they got 60 and 80 yd TD passes from Jamarr Robinson. MD, down by 14, was SOD then went on an 11pl drive but settled for a 35 yd FG to get within 28-17. WV clinched it with a 76/16pl drive for a 23 yd FG with 3:07 left...Temple is now 3-0 for the first time since 1979 when they finished 10-2. The Owls also got their first win over a BCS foe since 2004. Connecticut had a 245-143 yd edge at the half but trailed 7-6 as they settled for 3 FG's and missed one of them. TU trailed 16-14 when they re't'd a fumble 24 yds for a TD and the lead. It was 30-16 win for TU despite being outFD'd 16-13 and outgained 390-356...North Texas is one of the most beat up teams in the country. They lost QB Tune to inj, their 7th starter lost to inj and 5th for the season. Backup QB Thompson came in and played well but then broke his leg and is probably OFY. WR Riley Dodge, last year's starter who was not able to QB this year due to shoulder problems which limits his throwing, had to QB the rest of the game. Depth-shy NT did not play well vs Army. It was the first game all season NT had been outgained and outFD'd...Purdue lost its top RB in the spring then lost their top WR Keith Smith last week. Robert Marve was inj in the 3Q vs Ball St and Rob Henry hit 3-6-89 in his place...Michigan almost had its 2nd embarrassing defeat to an FCS foe. While UMass had a 26-22 FD edge, UM had a 525-439 yd edge...E Carolina had leads of 17-7 at the start of the 2Q and 24-21 at the half. They extended it to 27-21 vs Virginia Tech. VT battled back to lead 35-27 then got 2 big plays. RB Ryan Williams was inj and David Wilson saw his most extensive PT rushing 12x for 89 yards...Georgia was playing w/o susp'd WR AJ Green. They fell behind early to Arkansas, 17-7 at the half and it was 24-10 after 3Q's. UGA battled back with a pair of TD's, the 2nd with 3:55 left. The Bulldogs forced a punt and had the game in their hands with the ball at midfield but were sk'd on 3&4 then Ark got a 30 yd TD pass with :15 left. UGA started at its 36 but a Hail Mary pass which went 65 yds into the EZ on the fly was tipped and incomplete...Oklahoma took its opening drive 60/12pl for a TD but led just 10-3 at the half. AF tied it on their opening drive of the 3Q but OU took charge by going 41/2pl, 31/7pl and 76/10pl for 2 TD's and a FG and led 27-10 after 3Q's. AF went on a 14pl drive even converting on 3&15 and got a TD with 10:43 left. A key play happened when OU, at the AF35, had a 4&8 and went for it and Broyles was open for what could have been a TD but it was overthrown. AF went 65/10pl including another 3&15 conversion and got a 15 yd TD run with 3:39 left. OU got 2 FD's and ran out the clock...Hawaii led Colorado 10-0 at the half with a 237-124 yd edge. CU got a TD, safety and TD to open the 3Q to take a 17-10 lead. UF 17-13 on 3&8 CU got a 73 yd TD pass with 9:24 left then went 59/7pl for a TD with 3:12 left for the cover. CU finished with 26-13 FD and 452-337 yd edges...Alabama had their most pts since scoring 62 in 1991. Their 45 pts in the 1H were the most since 1973 and amazingly Bama did not face a 3rd down until the 3Q!! Mark Ingram in his first game of the season took his first carry 48 yds and his third 50 yds and finished with 152 yards on just 9 carries as the Tide had 315 yds rushing and 312 passing...SMU led 14-7 vs WSU when they fmb'd a punt and it rolled into the EZ and Washington St fell on it for a TD with 2:23 left 1H to tie it. SMU got a TD with 2:08 left to extend it to 21 but WSU got a 67 yd TD pass on their next offensive play with 1:50 left to stay under the pointspread...Say goodbye to the Heisman candidacy for Jake Locker. Team success is important but so is individual performance and Locker hit just 4-20-70. His 20% comp was the 3rd lowest in a single game behind Pat Julmiste of USF in '04 and Alan Everage of KSt in 2005 who completed 15% and 18.5%. NU's Taylor Martinez is trying to steal some of Denard Robinson's thunder as he was very impressive in his first road start rushing for 139 yards and hitting 7-11-150 passing. Nebraska led 28-14 at the half when Martinez took the 1st play of the 2H 80 yds for a TD. NU brought in backup QB Green during the 2Q and he fmb'd on the first play but Martinez would return and guide a TD drive with 1:19 left 2Q, 28-14. NU led 49-21 and UW waved the white flag as they punted on 4&3, 4&4 and 4&12 on their next 3 poss...Florida St's D held BYU to just 191 ttl yards incl 39 in the 2H and recorded 8 sacks. FSU led 13-0 but BYU got a FG and TD in the final 2:46 of the 1H to make it 13-10. FSU had a 126-6 yd edge in the 1Q but only led 3-0. They finished with 427 yds offense in a 34-10 win...Wisconsin was without 2 offensive players (WR's Toon and Gilreath). Specs tms almost cost UW the game. They gave up a 97 yd KR for a TD and then an 80 yd PR for a TD but it was called back. Before the half, ASU got a 95 yd KR by Middlebrook but he was tk'd at the 1 as time ran out. ST ended up saving UW as Arizona St got the apparent tying TD with 4:09 left but Jay Valai blk'd the xp. UW got 2 FD and ran out the clock...Brandon Weeden hit 23-32-409 yds and had the 4th highest passing total in Oklahoma St history despite being pulled after 1 drive in the 3Q. OSU led 27-7 and Tulsa was trying to get back in it when they were at the OSU15 and were int in the EZ and returned 79 yds. OSU got a 21 yd TD pass on the next play and then added a TD with :14 left in the half for a 41-7 lead. OSU had a school record 722 yards offense, breaking the record set by a Barry Sanders led 1988 team...TCU scored TD's on their first 5 poss vs ex-SWC rival Baylor with the schools less than 90 miles apart. The Frogs led 35-3 with 6:03 left in the 2Q and at the half had a 335-87 yd edge. TCU extended it to 45-10 on a TD with 9:53 left and QB Andy Dalton hit 91% of his passes (21-23) which was a single game TCU & MWC record. The Frogs have won all 3 matchups vs Baylor since the SWC disbanded by a combined score of 89-17 and BU had come in 2-0 was 1 of 3 teams who hadn't allowed a TD...The last 6 times Iowa has played west of the Central time zone they have lost all 6...Kentucky had a slow start vs Akron as they missed a FG, were SOD, punted and settled for a 33 yd FG on their first 4 poss and UA went 53/12pl for a 30 yd FG and the game was tied 3-3 early 2Q. UK scored on their next 7 poss incl 6 straight drives for TD's. They led 20-3 at the half with a 249-46 yd edge and UK had a 552-99 yd edge prior to the garbage drive...Navy threw for 219 yards with 179 of them in the 1H but Louisiana Tech led 23-16 at the half and had a 327-326 yd edge. Amazingly Navy came into the game allowing just 190 ypg but LT had 137 yards more than that at half. Navy went back to the ground game for the 2H adding just 40 more passing yards. With it tied at 23, LT was int'd and Navy went 55/10pl incl a 4th & 2, 17 yd run to the 7. They got a TD with :31 left 1H to take the lead and their next drive went 81/8pl for a TD and LT did not threaten after that...Florida was stopped on 4&1 at the UT43 and UT got 2 FD when Daniel Lincoln tied a career high with a 49 yd FG was the first time they scored first vs the Gators since '01. Simms was called for intentional grounding in the EZ for a safety but they reviewed and overturned it spotting it at the 1 which was huge as UF fmb'd 2pl later and then on 4&6 UT got a 35 yd TD pass to make it 24-17. UF went 60/9pl for a TD, 31-17 with 6:15 left...Clemson dominated the 1H and had a 17-0 lead and a 267-68 yd edge scoring a TD with 1:14 left 2Q. AU was int at the CU1 but went 61/6pl, 72/8pl for TD's then got a 78 yd TD pass to take a 24-17 lead after 3Q. CU tied it and it went to OT where AU got a FG. CU QB Parker was banged up and missed an open rec in the EZ and they settled for a 26 yd FG to send it to the 2nd OT but the C moved the ball and after the 5 yd pen, CU missed their 31 yd FG.

TURNOVERS: Marshall had 5 TO's to BG's 2. At the half MU had a 231-196 yd edge but BG led 28-14. BG got the 14 pt turnaround with a 78 yd IR TD and after another int drove 16 yds for a TD for that 28-14 lead. MU had a 42 yd FG blk'd to open the 3Q. BG fmb'd on their 1 and MU got a TD to tie at 28. BG got a 31 yd TD pass on 3&8 with 9:21 left then got a 2nd IR TD, this one 29 yds to make it 44-28 which was the final...Western Michigan had a 24-11 FD edge over Toledo and 416-268 yd edge but could not overcome QB Alex Carder's 6 TO's and trailed 21-7 at the half. UT got a 24 yd FG on a 19 yd drive following a fmb'l then got a 15 yd IR TD to lead 31-7. WM scored on their next 3 drives to make it 31-24 but UT got a 98 yd KR TD. WM's final 3 drives ended on an int at the UT27, were SOD at the UT31 and int at the UT20...It's standard practice for LSU to be outgained once again, this time 267-262 but they came away with a comfortable 29-7 victory. Five TO's were the key and Patrick Peterson grabbed 2 tipped int with long returns showing why he is one of top CB's in college football. MSU QB Relf QB'd the 1H and was int'd at the LSU2 and 30. LSU led 12-0 at half with a 112-107 yd edge. MSU did gain 40 yds on their final 5 plays of the game to end with the yardage edge.

CLOSE POINTSPREAD PLAYS: While Miami, Oh rolled to a 31-10 win over Colo St, they only had a 17-15 FD edge were outgained 306-299. CSU led 3-0 when they fmb'd a punt on their own 15 setting up a MU FG. MU got a 56 yd IR TD to lead 17-3. It was 17-3 at the half but with only a 139-122 yd edge. CSU was SOD at the MU2 and MU on 3&11 got a 62 yd TD pass with 2:35 left. CSU did drive 71/9pl getting a garbage TD with 1:19 left...N Illinois Coach Jerry Kill spent a good portion of the wk in the hospital but re't'd to the field for the game. Illinois only had a 208-203 yd edge at the half and led 18-12. There were 7 punts on the first 8 poss of the 2H. NI got to the UI31 with :24 left then opted for a 48 yd FG which gave them the backdoor cover and pulled them within 6. UI rec'd the ensuing inside kick and ran out the clock...The key to USC not covering was Lane Kiffin going for it on 2 pt conversions after 3 of their 5 TD's and failing on all 3. Kiffin has inexplicably gone for 2 pts TY seven times with USC converting twice.

EXCITING FINISHES: UAB was SOD at the Troy28, fmb'd at the TU8, were SOD at the TU38, fmb'd at the TU26 and int at the TU10 in the 1H. Despite only a 338-273 yd deficit, they trailed 23-7. UAB opened the 3Q being int at the TU10 but battled back. Troy got a TD with 9:50 left to lead 33-20 but UAB went 60/4pl for a TD. Troy went on a 14pl drive and had a FD at the UA840 but after a hold they punted with 1:09 left. UAB went 99 yds and on the last play threw a 44 yd Hail Mary pass for the miracle win, 34-33.

THE MOST UNIQUE POWER RATINGS IN THE COUNTRY

These Power Play Forecasts are the most unique in the country because they are based on **Northcoast Sports' Private Power Ratings**. Our ratings are unlike any computer rating, as we take into account all of the following: Strength of Opponents Individual Units (Rushing Offense and Defense, Passing Offense, & Defense, Scoring Offense and Defense, Garbage Yards, Weather, Injuries, Home Field Edge, and Successful Unbalanced Attacks). Here is how each is reflected:

Strength of Opponent: Our ratings do not just take the opposing team's overall power rating into account. For example, in 1992, Washington's defense vs the rush was rated at a "110" (From 1-100). They faced Colorado and allowed 183 yds rushing and **dropped 12 spots** in the national rushing defense ratings. However, Power Plays took into account the potent Buffalo run attack and had forecasted the Huskies yielding 225 yds. Due to the fact they did better than the forecast, Power Plays raised their rating to 112 even though they slipped in the national (straight yardage) rankings.

Another example was Michigan vs Purdue in 1989. Michigan held Purdue to just 45 yards rushing and improved their ratings in rushing defense in the national statistics. However, our ratings had them rated at a 102 and moved them down to 99, as they should have yielded just 32 yards to an impotent Purdue rush attack. Next time an announcer on TV tells you that a certain team is #3 in the country vs the run **you better check Northcoast Sports' Power Ratings and see how good a rush defense they really have!** The top twenty ratings in Power Ratings for each offensive and defensive category will be listed in each week's issue of Power Plays.

Garbage yards: These are yards that a team gains or allows in the final minutes of a game when it has been decided. For example, Team A is ahead 63-0 and allows 93 yards passing for a TD vs its fourth string defense. These yards are **counted** into national ratings, **but not in Northcoast Sports' Power Ratings!**

Weather: If a game is played in miserable weather conditions and is low scoring, the straight statistics credit the defense with outstanding performances. Our Power Ratings reflect the conditions and do not give excess credit to the defenses.

Injuries: When South Carolina played NC State in 1989, South Carolina QB Todd Ellis was injured on the third play of the game. His backup, who had seen very little action all year, was not prepared and hit on just 4 of 13 passes for 65 yards. The offensive coordinator did not risk any passes. In the national statistics NC State's pass defense **MOVED UP 14 NOTCHES**. In Phil's Power Ratings they **stayed the same**, as the low yardage WAS NOT reflective of an outstanding performance by the defense.

Home Field Edges: The weekly projection of yards and points is weighted with the home field factored in.

Successful Unbalanced Attacks: In 1989, Ohio St was held to 127 yards passing vs Northwestern. This dropped OSU in the national passing offense ratings & **RAISED** the Wildcats in the pass defense ratings. In our ratings the two units **remained** rated the same. Why? OSU rushed for 456 yards & **DID NOT HAVE TO PASS** & when they did they hit 9 of 11 passes, which is **VERY** effective. While Northwestern's pass defense looked good in the national ratings, only Northcoast Sports' Power Ratings reflected the TRUTH!

There you have it. More than just numbers, THESE RATINGS REFLECT the true strength of each unit and allow them to have **the most accurate forecast of yards gained and points allowed in the country!** No other rating system takes into account all the previous factors. Next time you hear that a team is rated third in the country in pass defense, just remember, yards are not everything and Northcoast Sports' Power Plays will show you how strong the team really is.

NORTHCOAST SPORTS PLUS OR MINUS POWER RATINGS

The Power Ratings listed below are not based on the Power Plays, they are based on last year's final computer power rating numbers with the pluses and minuses from the off season changes factored in. They are then adjusted during the course of the season based on the final score of the games that are played on a weekly basis. The Power Ratings listed below can be used for you as a base power ratings to forecast up coming lines and strength of opponents, etc. Once again, they are not based on Power Plays and **they differ from what we have shown in recent years**, which has been our actual computer Power Ratings. These are Northcoast Sports Plus or Minus Power Ratings.

2010 COLLEGE POWER PLAYS RANKINGS

Listed below are Northcoast Sports' Power Play Rankings. These Power Play Rankings are unique. Our rankings are unlike any computer ranking, as we take into account all the following: Strength of Opponents, Individual Units (Rushing Offense, Rushing Defense, Passing Offense, and Passing Defense) Garbage Yards, Weather, Injuries, Home Field Edges, and successful Unbalanced Attacks. Regular rankings based solely on numbers DO NOT take into account these factors.

Welcome to this week's issue of Power Plays. The Power Plays Newsletter consists of forecasts that are made by a special Power Plays rating system. This is a system developed many years ago and we regard it very highly. In our final analysis of the plays the Power Plays forecast takes up anywhere from 25 to 30% of our total analysis. You will see in the Power Plays Newsletter in the write-ups that we agree with the majority of the Power Plays forecasts. However, there are times when we will disagree with the Power Plays forecast. We want to make it clear that this is the Power Plays Newsletter and these forecasts are based purely on the power ratings. You should never use just one method, system or angle to determine your handicapping. The times that we disagree with the Power Plays Newsletter we will clearly note it. If the Power Plays rating is strong enough to be a 4★ Play, yet we are on the other side of the game, we will clearly state that we like the other side of the game. With all that said here are this week's Power Plays Selections.

Pro Football September 26th & 27th, 2010

Just a quick note for our Power Plays Subscribers. Obviously this newsletter is based upon statistical numbers & rankings that are used to develop the projections you see here. As with all types statistical information the more numbers that one inputs ordinarily the stronger the accuracy of the results. Therefore, one would expect the projections to be more reliable after a number of weeks worth of stats are input. The numbers here are based upon how they finished last season with adjustments made due to personnel changes. Preseason statistics are not included in any of the projections as we do not feel they would accurately adjust the numbers.

SUNDAY, SEPTEMBER 26th

Team	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
TENNESSEE	107	103	23	2.4	#28
NY GIANTS	113	253	29	2.6	#30

Both teams are off big losses LW & its a toss up as to who played worse. TEN turned the ball over 7 times LW vs PIT & gave up an 89 yd KR to start the game. They had 5 other drives end with just 1 or with negative yards. The Giants were taken apart with surgical precision by the Colts & only had 1 drive over 35 yds. PP gives the Giants a 366-210 yd edge but the lack of a line here means No Play.

Team	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
BUFFALO	84	133	10	2.9	#9
NEW ENGLAND	118	273	28	1.5	#1

NE has dominated the 1H of both games TY but have given up 39 2H points which combined with the line here opens up the risk of a backdoor cover. BUF is just the 3rd team since 1999 to start the year with less than 200 yds in its 1st 2 games. Their OL simply can't protect Edwards who has a 4.6 ypa & been sacked 7 times already. NE is 18-5 ATS off a SU loss & with PP showing a 391-217 yd edge here the Patriots are worth a play though we expect the line to climb.

3★ PATRIOTS 28 BILLS 10

Team	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
CLEVELAND	58	127	10	3.2	#20
BALTIMORE	157	235	21	2.1	#27

CLE fully expected to be 2-0 coming into this game but have only earned 7 FD's & 193 yds total in the 2H vs TB & KC which is roughly what the Bills have done in a whole game. They fielded 15 different starting QB's in the L12Y & their 5 TO's TY have been turned into 17 pts. Flacco had a rare poor day with 4 Ints which cost them the game vs CIN. While PP gives BAL a 207 yd edge but has this right around the line so No Play.

PITTSBURGH	87	173	14	1.7	#8
TAMPA BAY	46	215	12	3.4	#4

PIT's defense is back to playing at an elite level & have allowed 52 ypg (2.2) rushing to start the year. That's a big problem for a TB team that wants to be a run 1st unit that has been without its #2RB Huggins to start the season. Freeman has shown development vs a slow defense (CLE) & an inexperienced one (CAR). Leftwich spent 2009 with TB & he could be resigned for the start here. PP says TB (1-8 ATS as a HD) will keep the yardage even here but has it at the line for a No Play but the Total is worth a look.

CINCINNATI	166	228	28	2.1	#32

With an 0-2 start largely the result of poor play by QB Moore (307 yds 41% 2-4 8 sks), Fox will be under pressure to start Clausen here. CIN rebounded from their Wk 1 loss to NE by playing a good defensive game & pulling in 4 Ints to beat the Ravens. In a game that features a playoff caliber team vs the youngest team in the NFL, PP calls for the road team to have a 2 TD (79 yds) edge & we agree.

ATLANTA	143	243	27	1.9	#6
NEW ORLEANS	94	265	25	0.9	#29

ATL tore apart the Cardinals LW 41-7 as our Sept NFL GOM with a 444-267 yd edge. Ryan was more efficient than his #'s (225 yds 66% 3-0) shows as #3 WR Douglas (2 rec's on 8 targets) was a disappointment. NO is off LW's MNF game vs SF who showed some cracks after their loss to SEA. Without knowing how NO did in primetime, the state of ATL's injuries (expected to be minor) & not having a line this is a No Play.

KANSAS CITY	135	203	25	2.3	#3

While its very early in the season its a surprise to see KC atop the AFC West at 2-0. They have capitalized on being in a good situation vs SD & using their increased team speed to their advantage vs CLE holding them to 3 FD & 55 yds in the 2H. Despite the wins Cassel isn't that impressive so far TY with a 4.9 ypa & 1-2 ratio. KC is a young team that will have to play mistake free to win games with its rush attack (138 ypg 4.2). We'll have to make this a No Play as we need to see if SF regained its confidence vs NO on MNF first.

MINNESOTA	97	295	28	1.6	#16

DET has been very scrappy to start the season as they would have beaten CHI if not for a bad rule & they played the Eagles very well. Now they take on an 0-2 MIN team that is paying for Favre not wanting to come to camp & get into the flow of the offense. MIN did a good job of establishing RB Peterson (145 yds 5.2) who ran hard LW but Favre's 4 TO's did them in. PP calls for the home team to have a 170 yd edge here but has it right around the line for a No Play.

DALLAS	72	343	20	1.6	#10
HOUSTON	95	318	31	1.5	#19

DAL finds itself 0-2 for the 1st time since the Quincy Carter era due to blatant mistakes & bad play calling. Despite holding CHI to just 1 of 11 of 3rd Dns & just 38 yds rushing (2.0) the Cowboys lost at home as they gave up 6 passes of 15 or more yds. HOU is off a pair of huge wins including an OT effort vs their former OC & Kubiak's mentor. ST LOUIS	95	238	11	3.6	#11

The Redskins had a 20-7 lead in the 1H vs HOU but lost a surprising shootout in the 2H for an OT loss. They are a much better organized & led team than LY with a solid upgrade at QB. This is the 3rd straight team that STL faces that has a new starting QB vs LY with those teams struggling to adjust. PHI found itself in a tougher than expected fight vs DET in Vick's 1st start since 2006. Their OL has taken a beating so far TY having lost Ctr Jackson & they may not have LT Peters (knee sprain) here. JAX was throttled in SD LW with 5 of their 1st 6 drives being held to under 20 yds. The Colts slammed the Giants at home LW with a 410-257 yd edge. Now Manning gets to face a DEN pass defense who's top 2 CB's were beat up LW (Bailey - knee, Goodman - thigh). The Broncos were in a good situation LW at home vs a transitioning team that historically doesn't travel well. PP calls for a 144 yd edge by the Colts but with no line at the moment this is a No Play.

SAN DIEGO	64	260	31	1.2	#13
SEATTLE	105	233	22	3.4	#5

The Seahawks are a team that will feed off the energy of HC Carroll & Qwest Field but will only go as far as Hasselbeck (233 yds 57% 1-3) can take them. SD shook off the KC loss by crushing the Jags 38-14 with a 306-107 yd edge in the 1H. It remains to be seen if they can sustain their success in a hostile environment with a rookie RB that has 101 yds (4.2) in his 1st 2 starts. Carroll also has former SD #3 QB Whitehurst on the roster to interrogate as well. PP sides with the road team here but we think it will be closer so No Play.

OAKLAND	115	210	20	2.6	#15
ARIZONA	138	139	21	2.5	#24

Its hard to take either team seriously as the Cardinals were shredded by ATL in our NFL GOM winner LW. Anderson struggled vs an aggressive defense that brought pressure all day long. This is largely due to only 1 player in the spot as LY's OL, not having RB Wells (knee bruise) & Fitzgerald (knee sprain) not being 100%. OAK pulled QB Campbell (87 yds 53% 0-1 LW) after 6:0 & went with Gradkowski (162 yds 50% 1-1) who plays within himself & the system. Gradkowski's "ugly ball" style & the power run game are what the Raiders are built for right now but it remains to be seen if Al Davis will let them employ it. PP sides with the AD to keep it close but we need to know who OAK will roll with next week so No Play.
