THE MOST UNIQUE POWER RATINGS IN THE COUNTRY

These Power Play Forecasts are the most unique in the country because they are based on **Northcoast Sports' Private Power Ratings**. Our ratings are unlike any computer rating, as we take into account all of the following: Strength of Opponents Individual Units (Rushing Offense and Defense, Passing Offense, & Defense, Scoring Offense and Defense, Garbage Yards, Weather, Injuries, Home Field Edge, and Successful Unbalanced Attacks). Here is how each is reflected:

Strength of Opponent: Our ratings do not just take the opposing team's overall power rating into account. For example, last year, Florida Atlantic's defense vs the rush was rated at 119. They faced Alabama and allowed "just" 256 yds rushing and **dropped 5 spots** in the national overall defensive ratings. However, Power Plays took into account the potent Crimson Tide run attack and had forecasted the Owls yielding 289 yds. Due to the fact they did better than the forecast, Power Plays raised their rating to 112 even though they slipped in the national (straight yardage) rankings. Another example last season was Wisconsin vs UTEP. Wisconsin held UTEP to just 77 yards rushing and stayed the same in the overall defense in the national statistics. However, our ratings had them rated at 15 and moved them down, as they should have yielded just 50 yards to a weak UTEP rush attack. Next time an announcer on TV tells you that a certain team is #3 in the country vs the run **you better check Northcoast Sports' Power Ratings and see how good a rush defense they really have!** The top twenty ratings in Power Ratings for each offensive and defensive category will be listed in each week's issue of Power Plays.

Garbage yards: These are yards that a team gains or allows in the final minutes of a game when it has been decided. For example, Team A is ahead 63-0 and allows 93 yards passing for a TD vs its fourth string defense. These yards are **counted** into national ratings, **but not in Northcoast Sports' Power Ratings!**

Weather: If a game is played in miserable weather conditions and is low scoring, the straight statistics credit the defense with outstanding performances. Our Power Ratings reflect the conditions and do not give excess credit to the defenses.

Injuries: When Missouri played Vanderbilt last year, Tigers QB James Franklin was injured early in the game. His backup, who had seen very little action (rFr), was not prepared and hit on 30%, 9-30 passes. The offensive coordinator simplified the offense. In the national statistics Vanderbilt's overall defense **MOVED UP 8 NOTCHES**. In Phil's Power Ratings they **went from #11 dropping out of the Top 15**, as the poor performance WAS NOT reflective of an outstanding performance by the defense.

Home Field Edges: The weekly projection of yards and points is weighted with the home field factored in.

Successful Unbalanced Attacks: Last season, Tulsa was held to 155 yards passing vs Houston. This dropped Tulsa in the national passing offense ratings & **RAISED** the Cougars in the pass defense ratings. In our ratings the two units **remained** rated around the same. Why? Tulsa rushed for 350 yards & **DID NOT HAVE TO RELY ON THE PASS** & when they did they hit 18 of 32. While Houston's pass defense looked good in the national ratings, only Northcoast Sports' Power Ratings reflected the TRUTH!

There you have it. More than just numbers, **THESE RATINGS REFLECT** the true strength of each unit and allow them to have the **most accurate forecast of yards gained and points allowed in the country!** No other rating system takes into account all the previous factors. Next time you hear that a team is rated third in the country in pass defense, just remember, yards are not everything and Northcoast Sports' Power Plays will show you how strong the team really is.

NORTHCOAST SPORTS PLUS OR MINUS POWER RATINGS

The Power Ratings listed below are not based on the Power Plays, they are based on last year's final computer power rating numbers with the pluses and minuses from the off season changes factored in. They are then adjusted during the course of the season based on the final score of the games that are played on a weekly basis. The Power Ratings listed below can be used for you as a base power ratings to forecast up coming lines and strength of opponents, etc. Once again, they are not based on Power Plays and **they differ from what we have shown in recent years**, which has been our actual computer Power Ratings. These are Northcoast Sports Plus or Minus Power Ratings.

2014 COLLEGE POWER PLAYS RANKINGS

Listed below are Northcoast Sports' Power Play Rankings. These Power Play Rankings are unique. Our rankings are unlike any computer ranking, as we take into account all the following: Strength of Opponents, Individual Units (Rushing Offense, Rushing Defense, Passing Offense, and Passing Defense) Garbage Yards, Weather, Injuries, Home Field Edges, and successful Unbalanced Attacks. Regular rankings based solely on numbers DO NOT take into account these factors.

2014 TOUGHEST OPPONENT UNIT'S FACED

WHAT ARE THE TOUGHEST OPPONENT RANKINGS?

These rankings go far beyond the NCAA's straight statistical ranking of each team. For example in '12 Notre Dame ranked #89 in the NCAA in rush defense allowing 170 ypg, but ranked #40 in our rush defense rankings because they faced the toughest schedule of rush offenses in the NCAA in '13. As you can see, the NCAA's statistical rankings can be misleading. In the upcoming weeks we'll provide examples of this year's statistical disparities. These are the current rankings for this year. Here are the teams that have taken on the toughest & easiest schedules last year.

The Power Plays Newsletter consists of forecasts that are made by a special rating system. You will see in the write-ups that we agree with the majority of the PP forecasts. However, there are times when we will disagree. We want to make it clear that this is the PP Newsletter and these forecasts are based purely on the power ratings. If the PP's rating is strong enough to be a 4★ Play, yet we are on the other side of the game, we will clearly state that we like the other side of the game. With all that said here are this week's PP Selections.

Power Plays is based upon statistical numbers and rankings that are used to develop the projections you see here. As with all types statistical information the more numbers that one inputs ordinarily the stronger the accuracy of the results. Therefore, one would expect the projections to be more reliable after a number of weeks worth of stats are input. The numbers in parenthesis are a comparison of the teams rankings (Visitor, visitors offense ranking vs home defense ranking, Home home offensive ranking vs visitor defensive ranking) over each teams last 4 games.

MINNESOTA	352	144	209	23	-3	#10
TAMPA BAY	289	109	181	24	-2	#30

(MIN #24 vs TB #32, TB #27 vs MIN #14) - The Bucs got a chance to catch their breath offensively during the bye as the OC situation settles in & the defense had a much needed chance to heal. While the MIN defense played a good game for 58 minutes vs BUF the OL was taken apart once again & they now have an even longer trip to TB. PP calls for MIN to keep it close & secure the yardage edge but we disagree as TB is in a better situation & had extra time to stew over their bad loss to BAL.

NEW ENGLAND	303	111	192	28	+9	#7

(CHI #7 vs NE #23, NE #9 vs CHI #14) - CHI had open discord after the loss to MIA as the Bears have lost 4 straight at home due to Cutler's carelessness with the ball. He does have an impressive 104.6 QBR on the road (6th) & the Patriots do have issues defensively. However, NE has extra time to prep, the CHI OL isn't playing as well as 2013 & Brady relishes matchups vs top tier QB's. NE is 14-3 ATS as a HF of 7 or less & we disagree here so No Play.

(STL #12 vs KC #4, KC #15 vs STL #24) - Despite the highly respected Arrowhead atmosphere the Chiefs are 2-19 ATS as a HF of 7 or less with 15 outright upsets. KC did outgain SD by 115 yds LW but were in their preferred role as a dog (6-0 ATS) & the Rams with the #13 offense is a pleasant surprise considering they are starting their #4 QB from camp. 1st RD DC Aaron Donald has started to figure things out & the DL effort (15 plays behind LOS) vs SEA shouldn't be overlooked by Wilson's stats. PP calls for KC to get the win here but we disagree

SEATTLE	343	153	190	28	+1	#27
CAROLINA	246	66	181	20	+4	#16

(SEA #14 vs CAR #28, CAR #17 vs SEA #10) - SEA is 7-1 ATS off B2B losses & this is the 3rd year in a row they've made the trip to CAR covering both. Wilson had a superhuman effort vs STL becoming the 1st person to log 300 yds passing & 100 yds rushing in a game & almost got the team to the win. CAR is allowing 51 ypg more rushing than LY at this point & the fact that Newton is leading the team in rushing with 190 yds is telling after 7 games. PP sides with the road team but with SEA in their 3rd road trip in 4 Wks we'll temper the grade here.

NY JETS	284	118	167	20	-9	#9

(BUF #22 vs NYJ #19, NYJ #32 vs BUF #6) - Orton has led BUF to a pair of 4th Qtr wins as a starter but the strength of the Bills offense will be on the sidelines for at least a month due to injuries to RB Jackson/Spiller. That makes BUF one dimensional for a Jets defense that just faced 6 Pro Bowl level QB's (yes, including Cutler). PP has this right around the line with making the side a No Play but we'll take a look at the Total however.

JACKSONVILLE	249	72	178	15	-8	#29

(MIA #10 vs JAX #12, JAX #25 vs MIA #7) - Both teams are off mildly surprising wins as the Dolphins took it to the Bears (+169 yds +2 TO's) while the Jags survived their 3 TO's thanks to some bad coaching decisions by the Browns on the road after 2 huge wins. This is a letdown spot for JAX after their 1st win of the year & they lost by 13 as a 8 pt HD in the same situation LY. MIA has a big defensive edge here, won't make the same mistakes CLE did & PP backs it up with the yards making them the play.

TENNESSEE	288	73	216	16	+2	#28

(HOU #20 vs TEN #29, TEN #30 vs HOU #27) - The Texans are off LW's MNF game & those results are not factored in. This is their 3rd road game in 4 Wks though TEN is off their 2nd loss in 3 Wks by less than a FG. These teams are fairly well matched over the L4W, TEN is 0-9 ATS at home but without having the MNF game this is a No Play.

CINCINNATI	327	89	239	16	+2	#5

(BAL #5 vs CIN #31, CIN #26 vs BAL #16) - The Ravens have done exactly what you are supposed to in dominating weaker teams the L2W with yd edges of 111 & 117 yds & are the healthier team here. Yes, CIN is 11-1 ATS at home but injuries have them limited in the passing game though they do expect Green to return here. BAL held CIN to 5 straight FG's in Wk 1 & outgained them 323-188 in the 2H in Flacco's 1st game with Kubiak. PP calls for the dog to win outright with the yardage edge here & we agree.

ARIZONA	351	98	254	22	+6	#8

(PHI #19 vs ARZ #21, ARZ #28 vs PHI #26) - ARZ deserves a ton of respect for their 5-1 mark as they've made the most of the schedule getting teams at just the right time. The last offensively competent team they faced beat them by 21 though they did compete well for 3 Qtrs. The bye came at a good time for PHI as Foles/McCoy have been out of sync. ARZ does expect to get stud DE Calais Campbell back, Palmer is getting back into form so while PP calls for the dog to win outright with yardage, we'll limit the grade here.

(IND #1 vs PIT #9, PIT #6 vs IND #1) - PIT is off MNF & those results are not factored in. They take a big step up after facing Fitzpatrick at home with anger in their eyes. The Colts are 9-3 ATS outside of Domes with Luck & they've backed up their #1 & #1 rankings the L4W by covering each game. Without the MNF game & a firm line this is a No Play though.

CLEVELAND	396	145	252	24	+3	#20

(OAK #31 vs CLE #20, CLE #13 vs OAK #22) - The Browns loss LW is on the coaching staff as skipping the FG early in the game created a 10 pts swing which the Jags built on. Hoyer had his 1st truly bad game of the year but he owns a 101.3 QBR at home which is 8th. This will be Carr/Sparano's 1st road game together in a hostile environment & their 106.9 QBR is 30th which will be compounded by the fact they are down to their #3 FS here. PP has this right around the line though making it a No Play.

(GB #16 vs NO #13, NO #2 vs GB #18) - The Saints are a slight HF due to their 25-4 SU/22-5-2 ATS record as a NDIV HF. They are the desperate team here having dipped to 2-4 on the year but the NFC South could have an 8-8 division winner. GB has covered 4 straight as Rodgers is playing better than his 2012 level (108 QBR) right now. Still they haven't played in a truly hostile environment since their 12 pt loss at DET & we are undecided at this point so No Play.

(WAS #18 vs DAL #11, DAL #3 vs WAS #17) - If Griffin can practice he's slated to start here otherwise its Colt McCoy who rallied the Redskins ending a 4 game losing streak. Murray is the 1st player to start the season with 7 straight 100 yd games rushing but keep in mind the NFC East DIV HF is 1-14 ATS on MNF. Is this truly a different Cowboys team or will they succumb to the weight of their success?

Northcoast Sportsline Comp Plays have been outstanding throughout the years. The Northcoast Sportsline Underdog Play is the play that just missed out on being the Underdog Play in Power Sweep and we put it up each Tues. The Northcoast Sportsline Totals Play goes up on Thurs and is our best NFL Totals Play as of Thurs and many times it has ended up being a LPS!!! The Northcoast Sportsline College Play of the Week is given away free every Sat and is a play that just missed out on being a Late Phone Play. Out of 40 to 50 games to choose from, it is our 6th or 7th best play and is very successful and worthy of being a Late Phone Play. The Pro Play of the Week on Sun is also the one that just missed out on being a LPS and is our 4th best pro play of the day (Top 3 are all LPS). On Button #9 on Tuesday we give out a FREE 4★ from the Power Plays! Every Wednesday we give out our #2 Economy Club Play, Thursday is one of the PPH Big Dog Plays, Friday we give you the Big 12 Play and Saturday another FREE College Play!
