# HANDICAPPING NOTES FOR THIS WEEK'S NFL CONFERENCE FINAL GAMES

Q&A about this upcoming round of the playoffs and our researched answers: How do the home teams fare in this round? You would expect the home teams to have an edge and they are 45-34-1 57% ATS in the Finals since 1977. Vegas has been giving

some extra compensation for the home field advantage in this round. From 1977-'89 the home teams were 15-7 ATS. Since 1990 they are just 30-29-1 ATS. There have been only 4 seasons when a #1 seed didn't advance which were 2008, 2010, 2012 and 2018. Remember, these teams do not have the advantage of an extra week of preparation like they did in the

Divisional Rnd last week.

How often are the spreads over a td in the Finals? There have been 28 teams that have been favored by 7 points or more since 1990 in the Conference Final round. The big favorites are 13-15 ATS in that span, including just 7-11 ATS the last 18 occurrences. Kansas City & San Francisco both found themselves as at least TD chalk LY and both came away with the cover! Is covering in the Divisional round an advantage when your opponent failed to cover? Actually, it is just the opposite. There have been only 22 times since 1987 when a team has won in the Divisional round but did not cover. The public has a short term memory and those teams usually fall out of favor and the spread compensates for their loss. These teams have actually gone 13-7-2 ATS in the finals including a 2-gm sweep by DEN and SEA in '13 as both failed to cover in their DIV matchups.

How do teams fare in this round following an OT win in the Divisional round? There have been 7 occurrences dating back to 2001 when a Divisional round game went into OT. Arizona was in that role a year ago and were hammered against CAR a week later. In '03 -0 both CAR and PHI won their respective Divisional round matchups in OT before meeting in

the NFC Championship a week later (14-3 CAR win).

How do teams with the better SU record fare in this round? In the last 24 years, teams with the better SU records are 28-25-1 53% ATS. However, in the last 7 years the team with the better record has gone 8-3 ATS and won 10 of 11 outright (lone loss was '18 with NE

beating KC).

How do home underdogs in the AFC/NFC Title game rounds fare? Talk about RARE Since 1986 there have been a grand total of 9 home dogs in this round (30 years!!!). Amazingly in 1997 there were TWO and both lost as DEN and GB won as AF's. The NYG were a HD as a #1 seed in 2000 and won while PIT lost as a #1 seed HD in 2004. In the L9Y it has happened 5 times with Arizona winning in '08, Chicago losing to GB in 2010, Atlanta losing to SF in '12, Denver knocking off NE in '15 and the Eagles winning in '17 against the Vikings. No #1 seeds - Since 1990 when the NFL made the switch to 6 playoff teams the only 2 seasons when a #1 seed did not advance to the Conf Finals was 2008 and 2010. Both #1 seeds have advanced to the SB in 4 of the past 7 ssns. Prior to that, both teams reached on just 3 occasions since 1990.

Over/Unders - In the L18 years the Conference Finals has gone Over 24 of 36 games (push in '14 between IND/NE). Since 1988 when both teams went Over in their DIV round they are 10-5 Over in the Conf Finals. Also of note is that in the 5 games since 1993 when both teams went Under the total in the DIV round, they also are a perfect 5-0 Over in the Finals. In 2011 and 2013 both Conf Finals went Under the total which was the first time since 2003.
