These Power Play Forecasts are the most unique in the country because they are based on Northcoast Sports' Private Power Ratings. Our ratings are unlike any computer rating, as we take into account all of the following: Strength of Opponents Individual Units (Rushing Offense and Defense, Passing Offense, & Defense, Scoring Offense and Defense, Garbage Yards, Weather, Injuries, Home Field Edge, and Successful Unbalanced Attacks). Here is how each is reflected:

Garbage Yards, Weather, Injuries, Home Field Edge, and Successful Unbalanced Attacks). Here is how each is reflected:

Strength of Opponent: Our ratings do not just take the opposing team's overall power rating into account. For example, last year, Florida Atlantic's defense vs the rush was rated at 119. They faced Alabama and allowed "just" 256 yds rushing and dropped 5 spots in the national overall defensive ratings. However, Power Plays took into account the potent Crimson Tide run attack and had forecasted the Owls yielding 289 yds. Due to the fact they did better than the forecast, Power Plays raised their rating to 112 even though they slipped in the national (straight yardage) rankings. Another example last season was Wisconsin vs UTEP. Wisconsin held UTEP to just 77 yards rushing and stayed the same in the overall defense in the national statistics. However, our ratings had them rated at 15 and moved them down, as they should have yielded just 50 yards to a weak UTEP rush attack. Next time an announcer on TV tells you that a certain team is #3 in the country vs the run you better check Northcoast Sports' Power Ratings and see how good a rush defense they really have! The top twenty ratings in Power Ratings for each offensive and defensive category will be listed in each week's issue of Power Plays.

Garbage yards: These are yards that a team gains or allows in the final minutes of a game when it has been decided. For example, Team A is ahead 63-0 and allows 93 yards passing for a TD vs its fourth string defense. These vards are counted into national ratings, but not in Northcoast Sports' Power Ratings!

passing for a TD vs its fourth string defense. These yards are counted into national ratings, but not in Northcoast Sports' Power Ratings!

Weather: If a game is played in miserable weather conditions and is low scoring, the straight statistics credit the defense with outstanding performances. Our Power Ratings

reflect the conditions and do not give excess credit to the defenses

Injuries: When Missouri played Vanderbilt last year, Tigers QB James Franklin was injured early in the game. His backup, who had seen very little action (rFr), was not prepared and hit on 30%, 9-30 passes. The offensive coordinator simplified the offense. In the national statistics Vanderbilt's overall defense MOVED UP 8 NOTCHES. In Phil's Power Ratings they went from #11 dropping out of the Top 15, as the poor performance WAS NOT reflective of an outstanding performance by the defense.

Home Field Edges: The weekly projection of yards and points is weighted with the home field factored in.

Successful Unbalanced Attacks: Last season, Tulsa was held to 155 yards passing vs Houston. This dropped Tulsa in the national passing offense ratings & RAISED the Cougars in the pass defense ratings. In our ratings the two units remained rated around the same. Why? Tulsa rushed for 350 yards & DID NOT HAVE TO RELY ON THE PASS & when they did they hit 18 of 32. While Houston's pass defense looked good in the national ratings, only Northcoast Sports' Power Ratings reflected the TRUTH!

There you have it. More than just numbers, THESE RATINGS REFLECT the true strength of each unit and allow them to have the most accurate forecast of yards gained and points.

allowed in the country! No other rating system takes into account all the previous factors. Next time you hear that a team is rated third in the country in pass defense, just remember, yards are not everything and Northcoast Sports' Power Plays will show you how strong the team really is.

# SPORTS PLU5

The Power Ratings listed below are not based on the Power Plays, they are based on last year's final computer power rating numbers with the pluses and minuses from the off season changes factored in. They are then adjusted during the course of the season based on the final score of the games that are played on a weekly basis. The Power Ratings listed below can be used for you as a base power ratings to forecast up coming lines and strength of opponents, etc. Once again, they are not based on Power Plays and they differ from what we have shown in recent years, which has been our actual computer Power Ratings. These are Northcoast Sports Plus or Minus Power Ratings.

## **NOTE: Power Plays - PP** COLLEGE FOOTBALL OCT 22ND- OCT 24TH

The Power Plays Newsletter consists of forecasts that are made by a special rating system. You will see in the write-ups that we agree with the majority of the PP forecasts. However, there are times when we will disagree. We want to make it clear that this is the PP Newsletter and these forecasts are based purely on the power ratings. If the PP's rating is strong enough to be a 4\* Play, yet we are on the other side of the game, we will clearly state that we like the other side of the game. With all that said here are this week's PP Selections.

APPALACHIAN ST	551	262	289	44	-2	-

App has not played s/ Sep 26 while Ark St played last Thur & put up 609 yds. PP calls for App to be +124 yds & win by 10 but w/o playing for nearly a month who knows what App will look like here.

USF	312	138	174	18	-1	-

Tulsa had their gm PPD last wk & have not played s/ Oct 3 but the comp calls for them to be +115 yds & win by 18 pts. We agree w/ PP as USF is only putting up 311 ypg vs FBS foes & are just 1-5-1 ATS LY as a DD dog & Tulsa's DEF is holding foes to 216 ypg below their ssn avg!

LOUISIANA	358	214	144	24	+2	ノノノノ
UAB	425	210	215	27	+1	-

Two of the best G5 teams meet here. LA is 8-3-1 ATS as a dog under Napier, while UAB is 15-4-2 ATS at home s/17. UAB is proj'd to be +67 yds & win by a FG, but LA has a big ST edge. The final proj'd score is close to the opening line making this a no play.

WISCONSIN	542	315	227	39	0	-

Major revenge play for Wisc who lost as more than 4 td chalk LY. PP calls for a +293 yd edge and for the Badgers to win by 24 points and they are laying less than 3 td's so play the Badgers.

<b>BOSTON COLLEGE</b>	489	153	336	35	0	ノノノ

BC played much better than the score reflected last week but were undone by TO's. GT was -4 TO's in their last road game. PP calls for BC to win by DD's. The Eagles have the edge in all 3 phases and for BC is projected to finish with a 489-364 yd edge. We agree with the forecast.

LOUISVILLE	468	211	257	31	-8	-

Louisville enters 1-4 this year while FSU comes in off a huge upset win over NCarolina. 'Noles QB Travis is a Louisville transfer. The Cardinals are projected to end their 4 gm losing streak with a 468-381 yard edge but the projected MOV is at the opening Vegas line.

PITTSBURGH	318	68	250	17	+5	~

Pitt ply'd well w/o QB Pickett last week but settled for 5 fg's and lost by 12 vs Miami with nearly even yards. ND had a lackluster offensive effort vs L'ville. PP calls for ND to win by a td but Pitt holds a slight yards edge. We agree as Pitt has kept 5 of the last 6 within a touchdown.

TENNESSEE	402	152	250	26	-1	-

Bama has owned this series, winning 13 straight and covering 8 of the L/9 in Knoxville. The Tide are projected to win by nearly 3 td's but the yards are closer than expected so we'll pass.

NC STATE	372	158	214	30	+1	-
NORTH CAROLINA	546	210	336	38	-3	-

NC enters off a loss while NCSt has won 3 straight. The Heels are more than 2 td chalk but PP calls for NCSt to stay within single-digits. The Wolfpack have been kind to us this year so we will go back to them but NC's projected +174 yd edge does downgrade the play slightly.

VIRGINIA TECH	479	262	217	36	+1	~
WAKE FOREST	431	143	288	33	+8	-

The Hokies have struggled on defense but PP doesn't take into account health as Virginia Tech has been missing numerous starters due to Covid. PP leans with the underdog Demon Deacons but we like the favored Hokies who are getting healthier and 7-2 SU/ATS when Hooker starts at QB.

# NOTE: Power Plays - PP

# FOOTBALL OCTOBER 22nd - 26th

Power Plays is based upon statistical numbers and rankings that are used to develop the projections you see here. As with all types statistical information the more numbers that one inputs ordinarily the stronger the accuracy of the results. Therefore, one would expect the projections to be more reliable after a number of weeks worth of stats are input.
