THE MOST UNIQUE POWER RATINGS IN THE COUNTRY

These Power Play Forecasts are the most unique in the country because they are based on Northcoast Sports' Private Power Ratings. Our ratings are unlike any computer rating, as we take into account all of the following: Strength of Opponents Individual Units (Rushing Offense and Defense, Passing Offense, & Defense, Scoring Offense and Defense, Garbage Yards, Weather, Injuries, Home Field Edge, and Successful Unbalanced Attacks). Here is how each is reflected:

Strength of Opponent: Our ratings do not just take the opposing team's overall power rating into account. For example, last year, Florida Atlantic's defense vs the rush was rated at 119. They faced Alabama and allowed "just" 256 yds rushing and dropped 5 spots in the national overall defensive ratings. However, Power Plays took into account the potent Crimson Tide run attack and had forecasted the Owls yielding 289 yds. Due to the fact they did better than the forecast, Power Plays raised their rating to 112 even though they slipped in the national (straight yardage) rankings. Another example last season was Wisconsin vs UTEP. Wisconsin held UTEP to just 77 yards rushing and stayed the same in the overall defense in the national statistics. However, our ratings had them rated at 15 and moved them down, as they should have yielded just 50 yards to a weak UTEP rush attack. Next time an announcer on TV tells you that a certain team is #3 in the country vs the run you better check Northcoast Sports' Power Ratings and see how good a rush defense they really have! The top twenty ratings in Power Ratings for each offensive and defensive category will be listed in each week's issue of Power Plays.

Garbage yards: These are yards that a team gains or allows in the final minutes of a game when it has been decided. For example, Team A is ahead 63-0 and allows 93 yards passing for a TD vs its fourth string defense. These yards are counted into national ratings, but not in Northcoast Sports' Power Ratings!

Weather: If a game is played in miserable weather conditions and is low scoring, the straight statistics credit the defense with outstanding performances. Our Power Ratings reflect the conditions and do not give excess credit to the defenses.

Injuries: When Missouri played Vanderbilt last year, Tigers QB James Franklin was injured early in the game. His backup, who had seen very little action (rFr), was not prepared and hit on 30%, 9-30 passes. The offensive coordinator simplified the offense. In the national statistics Vanderbilt's overall defense MOVED UP 8 NOTCHES. In Phil's Power Ratings they went from #11 dropping out of the Top 15, as the poor performance WAS NOT reflective of an outstanding performance by the defense. Home Field Edges: The weekly projection of yards and points is weighted with the home field factored in.

Successful Unbalanced Attacks: Last season, Tulsa was held to 155 yards passing vs Houston. This dropped Tulsa in the national passing offense ratings & RAISED the Cougars in the pass defense ratings. In our ratings the two units remained rated around the same. Why? Tulsa rushed for 350 yards & DID NOT HAVE TO RELY ON

NICE Prover Ratings listed below are not based on the Power Plays, they are based on last years final computer power rating numbers with the pluses and minuses from the off season changes factored in. They are then adjusted during the course of the season based on the time of season changes factored in. They are then adjusted during the course of the season based on the final score of the games that are played on a weekly basis. The Power Ratings listed below can be used for you as a base power ratings to forecast up coming lines and strength of opponents, etc. Once again, they are not based on Power Plays and they differ from what we have shown in recent years, which has been our actual computer Power Ratings. 2021 TOUGHEST OPPONENT UNITS FACED

These rankings go far beyond the NCAA's straight statistical ranking of each team. For example in '12 Notre Dame ranked #89 in the NCAA in rush defense allowing 170 ypg, but ranked #40 in our rush defense rankings because they faced the toughest schedule of rush offenses in the NCAA in '13. As you can see, the NCAA's statistical rankings can be misleading. In the upcoming weeks we'll provide examples of this year's statistical disparities. These are the current rankings for this year. Here are the teams that have took on the toughest & easiest schedules last year.

NOTE: Power Plays - PP

COLLEGE FOOTBALL DEC 3RD- DEC 4TH

The Power Plays Newsletter consists of forecasts that are made by a special rating system. You will see in the write-ups that we agree with the majority of the PP forecasts. However, there are times when we will disagree. We want to make it clear that this is the PP Newsletter and these forecasts are based purely on the power ratings. If the PP's rating is strong enough to be a 4 * Play, yet we are on the other side of the game, we will clearly state that we like the other side of the game. With all that said here are this week's PP Selections.

FRIDAY DECEMBER 3rd CUSA CHAMPIONSHIP

	Ala	modome - S	an Antonio	,TX

WKU	463	98	365	41	+11	-
UTSA	443	170	273	31	+11	/

Hilltoppers are out for revenge after losing earlier this year at home, 52-46. Western Kentucky put up 670 yards and were +106 yds. UTSA is making their first CUSA Title gm appearance while WKU won B2B in 15 & 16. The Toppers started the season just 1-4 with losses to Army, Indiana, Michigan St and UTSA then won their next 7, winning by 26 ppg. UTSA covered 8 of the first 9 games but failed to cover as 32' pt chalk vs SMiss then was fortunate to beat UAB when they scored on the games final play in a desperation heave. WKU is on a 6-0-1 ATS run while UTSA has failed to cover 2 straight. Zappe threw for ssn high 523 in the first mtg. PP only calls for him to 'only' throw for 365 this time with the Hilltoppers getting revenge by 10 points. We like Western Kentucky to win as well and they are only a 1 pt favorite.

PAC-12 CHAMPIONSHIP Allegiant Stadium - Las Vegas, NV

OREGON	368	155	213	26	+10	VV
UTAH	407	196	211	34	0	-

Oregon is out for revenge after losing on the road 38-7 just 2 weeks ago where they were held to ssn low 294 yds. These two also met in the 2019 Pac-12 Championship with #5 Utah (-6') losing outright to #13 Oregon 37-15. Oregon is ply'g in their 4th Pac-12 Title game, and won all 3 previous trips including last year when they entered just 3-2 off back to back losses but upset USC . 31-24. Utah started the season 1-2 but they switched to Cam Rising at QB and won 8 of their L/9. Oregon started 4-0 with an upset win at Ohio St. They were upset at Stanford then won 5 straight before losing at Utah. PP calls for Utah to win by just over a td but we think the Ducks play better this time since they won't have the playoff pressure weighing on them.

NO PLAY: UTAH 34 OREGON 26

SATURDAY DECEMBER 4TH BIG 12 CHAMPIONSHIP

AT&T Stadium - Arlington, TX

BAYLOR	307	157	150	15	+8	VVV
OKLAHOMA ST	388	168	220	25	+1	-

This is OSU's first trip to the Big 12 title game while Baylor makes their 2nd trip here (lost in '19 vs Okla in OT 30-23). PP calls for OSU to win the B12 with a 10 point win (+81 vds), but BU does have the ST edge. We agree with the PP projection here as OSU is on a 9-1 ATS run & overall OSU's D is holding B12 foes to 154 ypg under their ssn avg & are #1 in the FBS with 47 sks incl 26 their L/4 gms! In their mtg earlier this season OSU was +126 yds & won by 10 pts and against B12 foes OSU is +172 ypg/+19 ppg while BU is +51 ypg/+10 ppg. 3★ OKLAHOMA ST 25 BAYLOR 15

NORTHERN ILLINOIS	470	220	250	35	-7	~

This is NIU's 9th appearance, while Kent St's only prior appearance was in 2012, when they lost to NIU 44-37 in 20T's. PP calls for KSU to be +102 yds and win by 8 and they are a huge edge in the TO margin! Coming into this ssn, NIU had won 10 straight vs Kent St going 7-3 ATS. Both teams went 6-2 SU & 5-3 ATS in MAC play. Nine of NIU's games have been decided by one score or less with the Huskies winning 7 of them & we actually like the Huskies to pull the outright upset. However we agree with PP's proj of the 'Over' in this gm as KSU has gone over in 5 of their L/7 gms while NIU has gone over in 5 of their L/6 gms incl their mtg this ssn which Kent St won 52-47 (682-663).

LA has been in all 4 SBC title gms (LY's cancelled due to covid) and in the first 2 they met App St. In their mtg earlier TY LA (+5) led 20-6 at HT (264-140) & the Cajuns won 41-13 as App St committed 4 TO's (led to 21 LA points). Against common foes App St is +108 ypg/+22 ppg while LA is +33 ypg/+9 ppg. This is LA HC Napier's last gm (took Florida HC job) & the team will fight hard to send him out a winner. PP calls for App St to have a slight edge in yds & win by a FG, however LA has a huge edge in TO margin! This gm is at the line, but we will focus on the 'Under' as App St is holding SBC foes to 90 ypg under their ssn avg & in the L/4 gms they are all'g 205 ypg/8 ppg while LA is holding their L/4 foes to 329 ypg/17 ppg & are holding SBC foes to 30 ypg under their ssn avg. App St has gone under in 5 of their L/7 gms while LA is 9-3 to the under this ssn.

HOUSTON	273	94	179	16	+11	-	
CINCINNATI	406	141	265	35	+11	~	

Cincinnati has the pleasure of hosting their conference title gm, which bodes well for a team that currently has the 2nd longest home winning streak in FBS at 26 games. With the turnover margin even and only a slight special teams advantage, PP is taking a bit of a leap on a 19-pt Bearcat win, especially when the projected yds edge (+133) would only indicate a 9-pt win. Houston is one bad half away from making this "Power 6th" conference title game a battle of unbeatens, and so while we commend PP for what they see as Cincinnati inching one last step closer to history, we see this game almost right at the current Vegas line. No play.

ALABAMA	343	63	280	21	+8	~

These teams meet in the SEC Title game for the 3rd time with Bama winning both previous meetings by 7 & 4 pts and Georgia covered both as dogs. Bama is a dog for the first time since 2015 when the Tide went between the hedges and beat the Dawgs 38-10 (+1'). PP calls for Bama to be the first team all season to top 17 points against UGA's vaunted D. The forecast calls for #1 ranked Georgia to win by just under a touchdown but Bama actually has the yardage edge which makes sense based on their common foes (UGA +99, Bama +136). Saban is 4-1 ATS as a dog since 2008 including 2 outright upset wins over Georgia but the projected MOV is right at the early Vegas line.

Pitt makes their 2nd ACC Title game appearance while WF is in their debut. Pitt is 10-2 SU/9-3 ATS this season after covering at Syracuse last week, 31-14 (-12'). WF comes in 10-2 SU/7-5 ATS. Pitt avg 513 ypg and WF putting up 484 but the Panthers have a huge edge on D, allowing just 353 ypg and holding foes 41 ypg below their average while WF allows 428 ypg and 27 ypg more than their foes average. PP calls for WF to win by 1 point but common foes point to Pitt being the play with Pitt +14 ppg, +110 ypg while WF is +7 ppg & +35 ypg. The forecast calls for 81 total points and with 2 explosive offenses led by All-ACC Caliber QB's and we agree with the projection. WF has gone Over in 6 of their L/8 while Pitt has gone Over in 8 of their 12 games so that's the play. 3★ OVER 72.5 WAKE FOREST 41 PITTSBURGH 40

This is the game you were all expecting, right? Iowa found it's way to Indy after escaping the jaws of deafeat last Friday while pitted against a 3-win tm forced into playing their backup QB making his first career start. Michigan hosted their archrival in a de facto Big Ten East Championship Game, and all but dominated the #2 team in the country from start to finish. The +13 turnover margin sticks out like a sore thumb for the Hawkeyes, as their luck in creating it has led to much of their success this year. Michigan is +153 in projected yds but PP sees what we see after last week and that's the Wolervines winning by at least 3 scores.

PP calls for SDSt to win by 9 pts but the yds suggest it'll be a 2-point game. While SDSt is holdring MW foes to 53 ypg under their ssn avg USU has a dynamic offense (457 ypg/32 ppg) led by QB Bonner (3236, 60%, 32-10) & the nation's leading WR Deven Thompkins (1543, 17.7, 9 td) and SDSt's pass D has all'd 286 ypg the L/5 gms & USU avg's 304 pass ypg. SDSt has the edge on D (#23 vs #93) and their ST is elite (#3 ranked ST) with super P Araiza (51.5 avg). However against common MW foes USU is +141 ypg while SDSt is -7 ypg. While PP likes SDSt to cover, six of SDSt's 2 MW with a complexity of the relief of the state 7 MW wins came by 8 pts or less & SDSt is 0-3-1 ATS in their L/4 gms as chalk.

This game was rescheduled from 4 weeks ago due to Covid (only FBS cancellation all season!). Both teams failed to get bowl eligible after losing last week. Cal has dropped 15 of the past 16 meetings with the lone win coming in '18 (1 pt win in LA). PP doesn't factor series history into the equation and we like how tough USC played against a solid BYU squad last week so we completely disagree with Power Plays' forecast.
