THE MOST UNIQUE POWER RATINGS IN THE COUNTRY

These Power Play Forecasts are the most unique in the country because they are based on Northcoast Sports' Private Power Ratings. Our ratings are unlike any computer rating, as we take into account all of the following: Strength of Opponents Individual Units (Rushing Offense and Defense, Passing Offense, & Defense, Scoring Offense and Defense, Garbage Yards, Weather, Injuries, Home Field Edge, and Successful Unbalanced Attacks). Here is how each is reflected:

Strength of Opponent: Our ratings do not just take the opposing team's overall power rating into account. For example, last year, Florida Atlantic's defense vs the rush was rated at 119. They faced Alabama and allowed "just" 256 yds rushing and dropped 5 spots in the national overall defensive ratings. However, Power Plays took into account the potent Crimson Tide run attack and had forecasted the Owls yielding 289 yds. Due to the fact they did better than the forecast, Power Plays raised their rating to 112 even though they slipped in the national (straight yardage) rankings. Another example last season was Wisconsin vs UTEP. Wisconsin held UTEP to just 77 yards rushing and stayed the same in the overall defense in the national statistics. However, our ratings had them rated at 15 and moved them down, as they should have yielded just 50 yards to a weak UTEP rush attack. Next time an announcer on TV tells you that a certain team is #3 in the country vs the run you better check Northcoast Sports' Power Ratings and see how good a rush defense they really have! The top twenty ratings in Power Ratings for each offensive and defensive category will be listed in each week's issue of Power Plays.

Garbage yards: These are yards that a team gains or allows in the final minutes of a game when it has been decided. For example, Team A is ahead 63-0 and allows 93 yards passing for a TD vs its fourth string defense. These yards are counted into national ratings, but not in Northcoast Sports' Power Ratings! Weather: If a game is played in miserable weather conditions and is low scoring, the straight statistics credit the defense with outstanding performances.

Our Power Ratings reflect the conditions and do not give excess credit to the defenses.

Injuries: When Missouri paged Vanderbilt last year, Tigers QB James Franklin was injured early in the game. His backup, who had seen very little action (rFr), was not prepared and hit on 30%, 9-30 passes. The offensive coordinator simplified the offense. In the national statistics Vanderbilt's overall defense MOVED UP 8 NOTCHES. In Phil's Power Ratings they went from #11 dropping out of the Top 15, as the poor performance WAS NOT reflective of an outstanding performance by the defense.

Home Field Edges: The weekly projection of yards and points is weighted with the home field factored in.

Successful Unbalanced Attacks: Last season, Tulsa was held to 155 yards passing vs Houston. This dropped Tulsa in the national passing offense ratings & RAISED the Cougars in the pass defense ratings. In our ratings the two units remained rated around the same. Why? Tulsa rushed for 350 yards & DID NOT HAVE TO RELY ON THE PASS & when they did they hit 18 of 32. While Houston's pass defense looked good in the national ratings, only Northcoast Sports' Power Ratings reflected the TRUTH!

There you have it. More than just numbers, THESE RATINGS REFLECT the true strength of each unit and allow them to have the most accurate forecast of yards gained and points allowed in the country! No other rating system takes into account all the previous factors. Next time you hear that a team is rated third in the country in pass defense, just remember, yards are not everything and Northcoast Sports' Power Plays will show you how strong the team really is.

Listed below are Northcoast Sports' Power Play Rankings. These Power Play Rankings are unique. Our rankings are unlike any computer ranking, as we take into account all the following: Strength of Opponents, Individual Units (Rushing Offense, Rushing Defense, Passing Offense, and Passing Defense) Garbage Yards, Weather, Injuries, Home Field Edges, and successful Unbalanced Attacks. Regular rankings based solely on numbers DO NOT take into account these factors.

2021 TOUGHEST OPPONENT UNITS FACED

These rankings go far beyond the NCAA's straight statistical ranking of each team. For example in 12 Notre Dame ranked #89 in the NCAA in rush defense allowing 170 ypg, but ranked #40 in our rush defense rankings because they faced the toughest schedule of rush offenses in the NCAA in 13. As you can see, the NCAA's statistical rankings can be misleading. In the upcoming weeks we'll provide examples of this year's statistical disparities. These are the current rankings for this year. Here are the teams that have took on the toughest & easiest schedules last year.

COLLEGE FOOTBALL SEPT 10TH- SEPT 11TH **NOTE: Power Plays - PP**

The Power Plays Newsletter consists of forecasts that are made by a special rating system. You will see in the write-ups that we agree with the majority of the PP forecasts. However, there are times when we will disagree. We want to make it clear that this is the PP Newsletter and these forecasts are based purely on the power ratings. If the PP's rating is strong enough to be a 4* Play, yet we are on the other side of the game, we will clearly state that we like the other side of the game. With all that said here are this week's PP Selection's.

Third straight year meeting & CCU has pulled the outright upset the L2Y. PP calls for CCU to have a 270 yd edge & win by nearly 4 td's. CCU is in a rare role as a 20+ pt favorite against a P5 team which has to make KU feel disrepected.

ILLINOIS	387	183	204	28	0	VVVV
VIRGINIA	479	177	302	35	-1	-

PP calls for UVA to win by a TD and to outgain Illinois by 92 yds. However Illinois does have a significant edge in ST's. UVA is on an 8-1 ATS run at home. The Vegas line is sitting at DD right now and we feel Illinois will play better as the underdog keep this game within a TD.

PP projects Army to win by 15 and be +162 yds but WKU had extra time to prep for the option & Army may struggle prepping for WKU's pass attack. Both teams looked impressive in Wk 1 and we see this game being decided by around a FG.

OREGON	357	130	227	27	-9	-
OHIO ST	538	246	292	43	+10	~

PPs projects Ohio St to win by 16 points and have an 181-yd advantage over Oregon. The Ducks could be w/o star DE Thibodeaux (inj'd last wk). While we agree with the proj'd final score in this game, the current Vegas line is sitting at 2 td's and it is too close to make play.

BC is proj'd to take down UMass by 31 pts and outgain them by 236 yds. The yds suggest only a 16 pt win for BC & with the line pushing over 5 td's we actually have a small lean on UMass, but we do not feel comfortable backing the Minutemen.

USF 377 133 244 21 PP calls for UF to win by 23 pts, but only outgain USF by 115 which suggests this will be an 8 pt gm. UF is over 4-td chalk and we agree with PP here as Florida has their huge SEC opener on deck next week vs Bama and could be looking ahead to that game.

PITTSBURGH	367	95	272	31	+4	-	
TENNESSEE	3/10	110	230	28	-5	_	

The computer calls for Pitt to get a 3-pt win and to have a slight yds edge. Both teams had impressive wins over lesser competition in week 1. Pitt has the experience edge but Tenn has the home crowd egde and the PP projection is right near the opening line, no play.

PP calls for ECU to outgain SCar by 78 yds and for ECU to win by 4 pts. However we feel like SCar may get back QB Doty & LY's SEC leading rusher could return here and we think SCar will feel disrespected & will be fired up for this gm as they are the underdog vs an AAC foe.

NO PLAY: EAST CAROLINA 34 SOUTH CAROLINA 30 TO's ST's Ttl Yds Rush **Pass Points GEORGIA SOUTHERN 277** 249 28 15 +9 466 192 274 32 0

MI PPs projects MIN to have a 174-yd edge but to win by 15, which is less than the current vegas line. We like MIN to win by nearly 4 TDs as Miami is just on a 2-12 ATS run against nonconference foes. Our lean goes against what PPs is projecting. No play. NO PLAY: MINNESOTA 40 MIAMI, OH 25

PP forecasts only an 8-pt win for OSU and the yds suggest that Tulsa only loses by 4 pts. With the opening line at DD we fully agree & think Tulsa keeps this one close as they are 8-2 ATS the L3Y as DD dogs & OSU QB Sanders status is a ? as of presstime.

68th mtg of the Rio Grande Rivalry. PP calls for NMex to win by 2 TD's and the yds suggest NMSt keeps this gm closer. We agree with the proj'd score as NMSt was impressive in the 1H last week leading SDSt at the half.

North Carolina enters angry off an upset loss at Virginia Tech last week. GSt was crushed at home by Army. PP calls for NC to win by just over 3 td's w/a 562-301 yd edge and a strong ST's edge. The lean is with GSt but we like the Heels to win big and expose a weak GSt pass defense.
