THE MOST UNIQUE POWER RATINGS IN THE COUNTRY

These Power Play Forecasts are the most unique in the country because they are based on **Northcoast Sports' Private Power Ratings**. Our ratings are unlike any computer rating, as we take into account all of the following: Strength of Opponents Individual Units (Rushing Offense and Defense, Passing Offense, & Defense, Scoring Offense and Defense, Garbage Yards, Weather, Injuries, Home Field Edge, and Successful Unbalanced Attacks). Here is how each is reflected:

Strength of Opponent: Our ratings do not just take the opposing team's overall power rating into account. For example, last year, Florida Atlantic's defense vs the rush was rated at 119. They faced Alabama and allowed "just" 256 yds rushing and **dropped 5 spots** in the national overall defensive ratings. However, Power Plays took into account the potent Crimson Tide run attack and had forecasted the Owls yielding 289 yds. Due to the fact they did better than the forecast, Power Plays raised their rating to 112 even though they slipped in the national (straight yardage) rankings. Another example last season was Wisconsin vs UTEP. Wisconsin held UTEP to just 77 yards rushing and stayed the same in the overall defense in the national statistics. However, our ratings had them rated at 15 and moved them down, as they should have yielded just 50 yards to a weak UTEP rush attack. Next time an announcer on TV tells you that a certain team is #3 in the country vs the run **you better check Northcoast Sports' Power Ratings and see how good a rush defense they really have!** The top twenty ratings in Power Ratings for each offensive and defensive category will be listed in each week's issue of Power Plays.

Garbage yards: These are yards that a team gains or allows in the final minutes of a game when it has been decided. For example, Team A is ahead 63-0 and allows 93 yards passing for a TD vs its fourth string defense. These yards are **counted** into national ratings, **but not in Northcoast Sports' Power Ratings!**

Weather: If a game is played in miserable weather conditions and is low scoring, the straight statistics credit the defense with outstanding performances. Our Power Ratings reflect the conditions and do not give excess credit to the defenses.

Injuries: When Missouri played Vanderbilt last year, Tigers QB James Franklin was injured early in the game. His backup, who had seen very little action (rFr), was not prepared and hit on 30%, 9-30 passes. The offensive coordinator simplified the offense. In the national statistics Vanderbilt's overall defense **MOVED UP 8 NOTCHES**. In Phil's Power Ratings they **went from #11 dropping out of the Top 15**, as the poor performance WAS NOT reflective of an outstanding performance by the defense.

Home Field Edges: The weekly projection of yards and points is weighted with the home field factored in.

Successful Unbalanced Attacks: Last season, Tulsa was held to 155 yards passing vs Houston. This dropped Tulsa in the national passing offense ratings & **RAISED** the Cougars in the pass defense ratings. In our ratings the two units **remained** rated around the same. Why? Tulsa rushed for 350 yards & **DID NOT HAVE TO RELY ON THE PASS** & when they did they hit 18 of 32. While Houston's pass defense looked good in the national ratings, only Northcoast Sports' Power Ratings reflected the TRUTH!

There you have it. More than just numbers, **THESE RATINGS REFLECT** the true strength of each unit and allow them to have the **most accurate forecast of yards gained and points allowed in the country! No other rating system takes into account all the previous factors.** Next time you hear that a team is rated third in the country in pass defense, just remember, yards are not everything and Northcoast Sports' Power Plays will show you how strong the team really is.

NORTHCOAST SPORTS PLUS OR MINUS POWER RATINGS

The Power Ratings listed below are not based on the Power Plays, they are based on last year's final computer power rating numbers with the pluses and minuses from the off season changes factored in. They are then adjusted during the course of the season based on the final score of the games that are played on a weekly basis. The Power Ratings listed below can be used for you as a base power ratings to forecast up coming lines and strength of opponents, etc. Once again, they are not based on Power Plays and **they differ from what we have shown in recent years**, which has been our actual computer Power Ratings. These are Northcoast Sports Plus or Minus Power Ratings.

CINCINNATI	288	113	175	25	0	#24
CAROLINA	301	129	172	21	0	#22

PP likes Cincy by 4 pts, but calls for CAR to have the yds edge. We like Cincy to get the road win by more than a td, so we disagree with the computer here.

LA RAMS	326	108	218	16	+1	#16
CHICAGO	299	108	191	24	0	#18

Despite PP calling for CHI to win by 8 pts, it calls for the Rams to have the yds edge. We side with the Rams as despite their inj's they have the QB & cch edge here.

DENVER	229	123	106	17	-2	#6
NY JETS	369	127	242	28	+1	#12

PP calls for the Jets by 11 here and they have a +140 yd edge. DEN is on the road for a 3rd time in 4 weeks and rookie QB Nix is facing an excellent Jets defense & pass rush.

PHILADELPHIA	397	138	259	23	-4	#23
TAMPA BAY	303	94	209	20	0	#27

PP calls for Philly by 3 pts and they are proj'd to have the yds edge by nearly 100 yds. While we like the Eagles to get the win were are right at the line, as is Power Plays.

WASHINGTON	300	112	188	22	+1	#17
ARIZONA	450	182	268	32	0	#30

ARZ is forecasted to win by 10 pts and outgain WAS by 150 yds. We disagree with PP here and side with WAS as they have been very impressive early on led by QB Daniels.

NEW ENGLAND	223	82	141	12	+1	#5
SAN FRANCISCO	417	141	276	27	+1	#32

PP has SF here by over 2 td's and nearly having a 200 yd edge! The line is DD and despite SF dealing with inj's they are still the much better team and still have a strong DEF.

3.5★ SAN FRANCISCO 27 NEW ENGLAND 12

	Ttl Yds	Rush	Pass	Points	TO's	ST's
CLEVELAND	325	119	206	19	-2	#29
LAS VEGAS	255	65	190	22	-4	#8

While Vegas is proj'd to win by a FG the yards favor CLE by 70 yds. Both teams are off disappointing losses and we have a small lean on the home squad, but it's a no play.

KANSAS CITY	375	108	267	22	-2	#9

BUFFALO	297	103	194	21	+5	#26
BALTIMORE	412	191	221	28	+1	#25

PP likes BAL here by a TD and gives them a significant yards edge. However BUF looks like the top team in the AFC and we feel like this will be a close game.

DETROIT	416	157	259	28	-1	#13

PP has Detroit outgaining SEA by 124 yards and winning by over a td, while the line is around a FG. The Lions are a strong home team and we agree with PP here.
