# 2023 COLLEGE POWER PLAYS RANKINGS

Listed below are Northcoast Sports' Power Play Rankings. These Power Play Rankings are unique. Our rankings are unlike any computer ranking, as we take into account all the following: Strength of Opponents, Individual Units (Rushing Offense, Rushing Defense, Passing Offense, and Passing Defense) Garbage Yards, Weather, Injuries, Home Field Edges, and successful Unbalanced Attacks. Regular rankings based solely on numbers DO NOT take into account these factors.

# 2023 TOUGHEST OPPONENT UNITS FACED

These rankings go far beyond the NCAA's straight statistical ranking of each team. For example in '12 Notre Dame ranked #89 in the NCAA in rush defense allowing 170 ypg, but ranked #40 in our rush defense rankings because they faced the toughest schedule of rush offenses in the NCAA in '13. As you can see, the NCAA's statistical rankings can be misleading. In the upcoming weeks we'll provide examples of this year's statistical disparities. These are the current rankings for this year. Here are the teams that have took on the toughest & easiest schedules last year.

**NOTE: Power Plays - PP**

**COLLEGE FOOTBALL OCTOBER 11TH-17TH**

The Power Plays Newsletter consists of forecasts that are made by a special rating system. You will see in the write-ups that we agree with the majority of the PP forecasts. However, there are times when we will disagree. We want to make it clear that this is the PP Newsletter and these forecasts are based purely on the power ratings. If the PP's rating is strong enough to be a 4★ Play, yet we are on the other side of the game, we will clearly state that we like the other side of the game. With all that said here are this week's PP Selections.
